Please install the machine as below (do not connect to power):

The tower

Base plate

Fix the Screws

General operation

STANDBY MODE
Press the STANDBY ⏻ button to wake up the unit or turn to standby mode.

SELECT MODE
Press the MODE ⏻ button to switch to one of the modes: CD, USB, FM, Bluetooth, or Aux. Press the CD/USB button on remote to select CD or USB mode, press the AUX button on remote to select Aud-1 or Aud-2 mode.

VOLUME SETTING
Press the VOLUME+/- buttons or rotate the Volume knob to adjust the volume.

MUTE THE SOUND
Press the MUTE ⊠ button on remote control to mute the sound. Press again or press the VOLUME+/- buttons to resume the volume level.

SKIP TRACKS
Press the PREVIOUS ⏮ /NEXT ⏭ button on remote control or press and hold the ⏮/⏭ button to skip to the previous or next track.

PLAY/PAUSE
Press the PLAY/PAUSE ▶II button to pause the playback, press again to resume.

ACCELERATE THE MUSIC
In USB or CD mode, press the ◄◄ / ►► button on remote control to forward or reward the music. Press repeatedly to resume the normal speed.

REPEAT MODE
Press the REP. button on remote control to repeat the song by once, press again to repeat all songs, press the third time to resume normal.
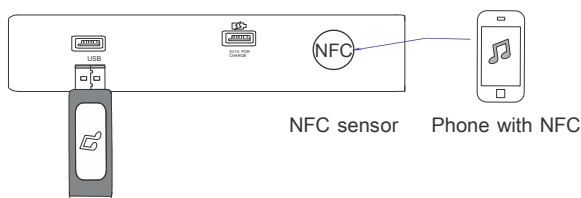

PROGRAM
In CD mode, press the PROG. button on remote control to enter the program setting, " P :0100", use the NUMBER buttons to select the song you want to program, then press the ▶II button to confirm and start playing the music in the programmed order.

Bluetooth operation

1. Press the MODE ⫶ button to switch to the Bluetooth mode.
2. The previous paired device will connect to speaker tower automatically when each time changing to Bluetooth mode.
3. Turn on the Bluetooth device (e.g. phone) and enter the Bluetooth search interface.
4. Search "MP720" and pair it, input the password "0000" if necessary. Then the indicator will light steadily.
5. If it still doesn't work, reset the Bluetooth and follow above steps again.

NFC operation
1. Press the MODE ⫶ button to enter the Bluetooth mode.
   2. Place the back of phone (with NFC function) on the position of word " NFC"
on the front panel of the unit for 3 seconds, the Bluetooth function of the phone is activated automatically.
3. When the indicator lights steadily and you can hear an audible signal, they are paired.
4. To disconnect NFC Bluetooth connection, place the back of the phone on the position of the word " NFC" on the front panel of the unit. When there comes an audible signal, they are disconnected.
5. Some devices of Android system 4.0 or below need to install the NFC.apk to enable the NFC function. Some devices may be in a weak compatibility for NFC function, that may relate to the NFC software.

NFC sensor   Phone with NFC

USB operation

1. Power on the unit and insert a USB Flash Drive (not supplied) into the USB Port, ensuring the plug is fully inserted at the correct way.
2. Press the MODE ⫶ button to switch to the USB mode.
3. The tower will play music from the USB automatically.
4. The maximum size of Flash Drive that can be connected is 32GB max.

5. The supported format for USB play is MP3.

Audio operation

Use the 3.5mm-RCA Audio cable (included) to connect the unit with Disc player/MP3 player/phone/computer or other music device.

1. Connect one end of the Audio cable to the R/L Audio-in Jack on the back panel of the unit, then connect the other end to the MP3 player.
2. Press the MODE ⏾ button on the top panel or press the AUX button on remote to switch to Aux in mode (Aud-1/ Aud-2).
3. Press the AUX button to enter the Aud-1 mode and start playback by the device connected to the R/L RCA Jack.

   E.g. to save the 107.5MHz into preset 36. Press the NUMBER button 10+, 6, then press F and input 1, 7, 5, 0, at last press the SAVE button.

Trouble shooting

Before taking the unit to be repaired, please check the following table when a problem occurs. Consult your dealer or service center if the problem cannot be solved with the following information.

Problem	Remedy
(Power) System does not turn on or does not respond to the Remote control.	- Make sure AC power plug is connected to the wall socket outlet properly and it has power. - If this does not help, leave the unit unplugged before seeking advice.
(Remote control) No functions or short range.	- Insert new batteries. - Aim remote directly towards the remote sensor located in center of speaker.
(Pairing the product) Cannot pair successfully.	- Check whether the speaker is in Off or searching mode. - Check whether there are other Bluetooth receivers around your Bluetooth device. Turn them off to avoid any disturbance. Attempt to pair again.
Cannot play properly, the music plays intermittently.	- Check whether the distance between the speaker and your Bluetooth device is out of its working distance (10m). - Check whether there are some obstacles blocking the communication between the speaker and the Bluetooth device. - Move the speaker or the Bluetooth device to get the best reception.
The sound is distorted.	- Check the volume setting on both the speaker and your Bluetooth device and adjust the volume to a suitable level.

Specifications
