ALL NEW GAMING SPIRITS

COUGAR 700M is an adjustable gaming mouse which is dedicated to professional gamers. With the design strategy , "Framing Structure" , the parts and components are built on a simply folded aluminum chassis; which provides better product strength.

The arched frame supports the palm ergonomically, and it' s an adjustable and interchangeable palm rest module. The standard palm rest module can be replaced with a "Sport Mode" version provided.

The sniper button is designed with a 45 degree angle activation, to provide a quick access, better stability and more precise aiming during game play.

700M

Features

8200DPI PRECISION GAMING SENSOR TECHNOLOGY

ADNS-9800 high performance laser sensor for accuracy cursor control

32-BIT ARM PROCESSOR

Offer superior computing speed

ALUMINUM FRAMING STRUCTURE

Components are built on a simply folded aluminum chassis to provide more rigid and robust

MUZZLE BRAKE SR

Extended metal tube is inspired from the weapon and increase the flexibility of the cable for smoother motions

PALM REST HIGH/LOW ADJUSTMENT (TOOL-LESS)

In order for better palm supporting, the arched frame can be raised with the knob rotation
