

Transmission DUAL 9 FE 75W-90

Very high performance multigrade synthetic oil for the lubrication of highly loaded gears

TOTAL

APPLICATIONS

Recommended for hypoid axles as well as synchronized gearboxes

MAIN ADVANTAGES

A product satisfying the requirements of:

Very high technical performances

• **Optimized efficiency of axles**

• **Protection of bearings**

• **Less loss of energy, more fuel savings**

TRANSMISSION DUAL 9 FE 75W-90

Very high performance multigrade synthetic oil
for the lubrication of highly loaded gears

Particularly recommended for the lubrication of rear axles and final drives of commercial vehicles from Mack, MAN, DAF, Iveco, Volvo, Renault Trucks, Mercedes-Benz, with extended drain interval.

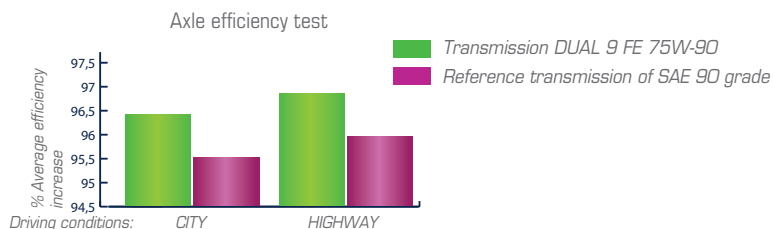

OEMs approvals

• MB-Approval 235.8 • MAN 341 TYPE E3, Z2
• MAN 342 TYPE M3 • SCANIA STO 1:0 • VOLVO 97312
• ZF TE-ML 02B, 05B, 12L, 12N, 16F, 17B, 19C, 21B

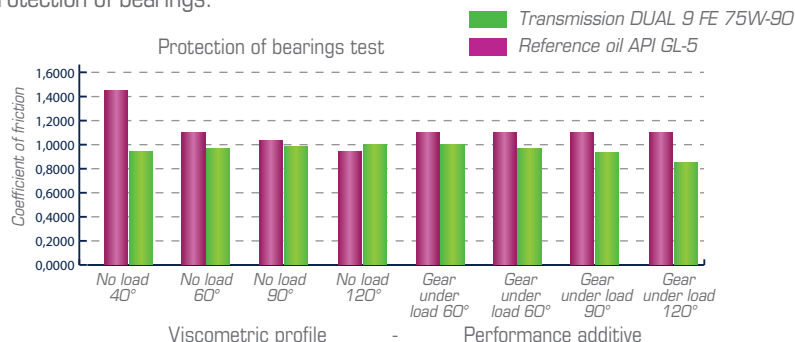

Performance level

• API GL-4/ GL-5/ MT-1 • SAE J2360 PRI GL 0661

Transmission DUAL 9 FE 75W-90 helps to significantly improve axle efficiency and contributes towards noticeable fuel savings, particularly in city operation.

Transmission DUAL 9 FE 75W-90 helps to reduce friction and thus increases the protection of bearings.

Transmission DUAL 9 FE 75W-90 helps to diminish the loss of energy usually seen in transmissions (2% to 5% - see below).
