25/02/2016

Customize your own setting via adjusting the functions within control panel:
1. MAIN CONTROL: You can set up the number of speakers and adjust the Master, Front, Rear and Center Volume and sample Rate of speakers and microphone.

2. EQUALIZER: Enable the Equalizer and set it up to your personal preference or use one of the predefined settings for the different game styles.

You can also save you own EQ settings and you will have them available under the "MANUAL" drop down menu.

CREATE YOUR PERSONAL PRESET:

MANUAL   6666

3. ADVANCED SETTINGS: Here you can set different features like Dynamic Bass, Audio Enhance, SoundLevel Normalization for the output device and Incoming Voice Definition or Voice FX for the input device.

4. AUDIO PROFILES: You can select, modify and store up to 5 different profiles and switch your custom settings quickly.

RAGE Z90 INLINE CONTROLLER

You can configure below settings through the inline controller:

1. Adjust the speaker master volume as needed. (Volume wheel).

2. Mute the playback. (Wheel center mute button).

3. Mic. mute function: mute the mic with just one click and easily turn it back ON when required. (Side mute mic button).

4. Switch on/off the Ozone Atmosphere. (LED side switch).

5. Adjust the volume of every channel independently with the center, front, rear and sub sliders. (Independent channel volume sliders).

* LED indicator on controller:
RED LED blinking when POWER ON

* LED indicator on microphone:
LED off when MIC MUTED

* Plug & Unplug instructions:
Insert the mic connector into the headset paying attention to the shape of the case and plug it. Once plugged turn the mic 90° to avoid detach it by error.
To detach the mic first turn the mic 90° in the other direction and unplug it.
