(a) : not applicable;

(b) : not applicable;

(CTLS) means a light source that can be set to

1. emit light with a large variety of colours "outside" the range defined in Article 2;
2. but can also be set to emit "white light" inside the range defined in Article 2 for which the light source is within the scope of this Regulation.

See Erp Range (A)

If Red, Blue, Green, .. are all considered as White light, then yes, this light is deemed as Colour Turnable light source.
