IMPACT DRILL/SCREWDRIVER 20V LI-ION

This cordless 20V Powerplus impact drill/screwdriver is so versatile that it can drill holes in wood just as good as screw something together. Furthermore, the device features an impact function to drill in stone too.

The auto locking chuck (13mm diameter) makes it very easy to change bits and drills. The LED worklight enables you working in poorly lit spaces too. Finally, the quick stop also takes care of your safety and comfort, as it immediately stops the chuck from turning.

With this Powerplus impact drill/screwdriver you enjoy total freedom of movement while drilling. On the one side you can choose between two different speed settings and 16 torque positions + 1 impact and 1 drill function. On the other side you can keep on working twice as long thanks to the charger and 2 batteries that are included. The status indicator shows you the charge status of the battery. All this material doesn't need to stay lying around: you nicely put everything in the BMC.
