

ELITE ACTIVE 75t

Engineered for secure fit. Great music and calls, waterproof and designed for sport.*

Secure fit for active lifestyles

Go anywhere, do anything, without worrying about losing an earbud. Tested for secure fit, and with extra grip coating, Elite Active 75t earbuds are compact and comfortable. They're designed to stay in place, even when you really put them through their paces.

Waterproof durability, guaranteed

IP57-rated, with a 2-year warranty against dust and sweat**, Elite Active 75t earbuds are also waterproof*. Wear them throughout your day, from the bus or train, to the gym, and home again with no need to worry about getting caught in the rain.

More power, more freedom

With up to 7.5 hours of battery and up to a total of 28 hours with the handy charging case, these earbuds can last and last. And thanks to the fast charging feature, you get up to an hour of battery from just 15 minutes of charging. So even when your energy reserves are running low, your music and calls are never more than a few minutes away.

Stay safe on the go

HearThrough mode uses the 4 built-in microphones to pick up the sounds around you and play them through your earbuds' speakers, so you don't need to pause playback to be able to hear what's happening around you. Use the customizable slider in the Jabra Sound+ App to personalize how much surrounding audio you want to hear. HearThrough works when you're listening to audio or on a call, and also when there is no playback.

Great calls, wherever you are

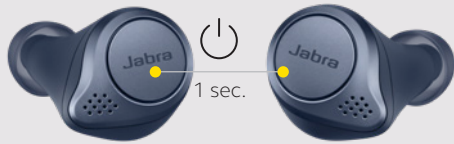

Making and taking calls is always a great experience, thanks to enhanced 4-microphone technology, which filters out disruptive noise around you. Be confident that you can take that call, even noisy environments like the gym.

Access your voice assistant, fast

Need an answer now? Access Amazon Alexa, Siri® and Google Assistant™ with a double tap, and quickly get the information you need – from setting appointments, to finding nearby events or calling your best friend. And with Bluetooth 5.0, you can seamlessly connect to your android or Apple device, with no hassle.

HOW TO PAIR

Push (1 sec) the buttons on both earbuds to power on, and then follow the voice instructions to pair to your phone.
