

Lindhaus LS50 Hybrid

Carpet and Floor Vacuum Cleaner

Multifunctional upright vacuum cleaner for cleaning of larger areas. The machine can be operated with batteries and cord, and uses a powerful brush motor with cylindrical brush. Lindhaus LS50 is designed to be used in medium-sized and large areas, in which there is also the need to access to low profile and tight places. Low structure in the front and adjustable handle system makes it possible to use the LS50 in many different areas.

Good brush pressure and smooth movement ensures optimal cleaning results. All the user needs to do is to guide the machine wherever needed, the machine will do the rest. Daily use and maintenance is simple: brush and squeegee is easy to remove without any tools, and the dust bag container is removable and easy to clean. The machine comes with internal charger and cord.
