WELCOME TO HOTH

It may be a dark time for the Rebellion, but it's a great moment in LEGO® *Star Wars* history as we present one of the most - if not the most - requested Ultimate Collector Series model in recent years: The Imperial AT-AT walker from *Star Wars: The Empire Strikes Back*.

We pursued new building techniques from across the galaxy to give you an authentic-looking, minifigure-scale model that would do its menacing movie counterpart justice and look amazing on display in your home or office. We hope you will feel the thrill of having the Imperial Starfleet hot on your heels as you discover the magnitude of the powers of the dark side. And with over 6,700 pieces, you may even have enough time to watch the entire saga while you build.

Jens Frederiksen

LEGO® *Star Wars*™

BIENVENUE SUR HOTH

C'est peut-être une période sombre pour la Rébellion, mais c'est un grand moment dans l'histoire de LEGO® Star Wars. Voici l'un des modèles de la série de collection suprême les plus demandés – peut-être même le plus demandé – des dernières années : le marcheur TB-TT impérial de Star Wars : L'Empire contre-attaque.

Nous avons cherché de nouvelles techniques de construction à travers la galaxie pour vous offrir un modèle authentique à l'échelle de figurine qui ferait honneur à son menaçant homologue du film et serait superbe à exposer à la maison ou au bureau. Nous espérons que vous pourrez ressentir le frisson d'avoir l'armée impériale à vos trousses lorsque vous découvrirez l'ampleur des pouvoirs du côté obscur. Et puisque le modèle compte plus de 6 700 pièces, vous aurez peut-être même le temps de regarder toute la saga pendant que vous construisez.

Jens Kronvold Frederiksen
Directeur de la conception et
responsable de la création,
LEGO® Star Wars™

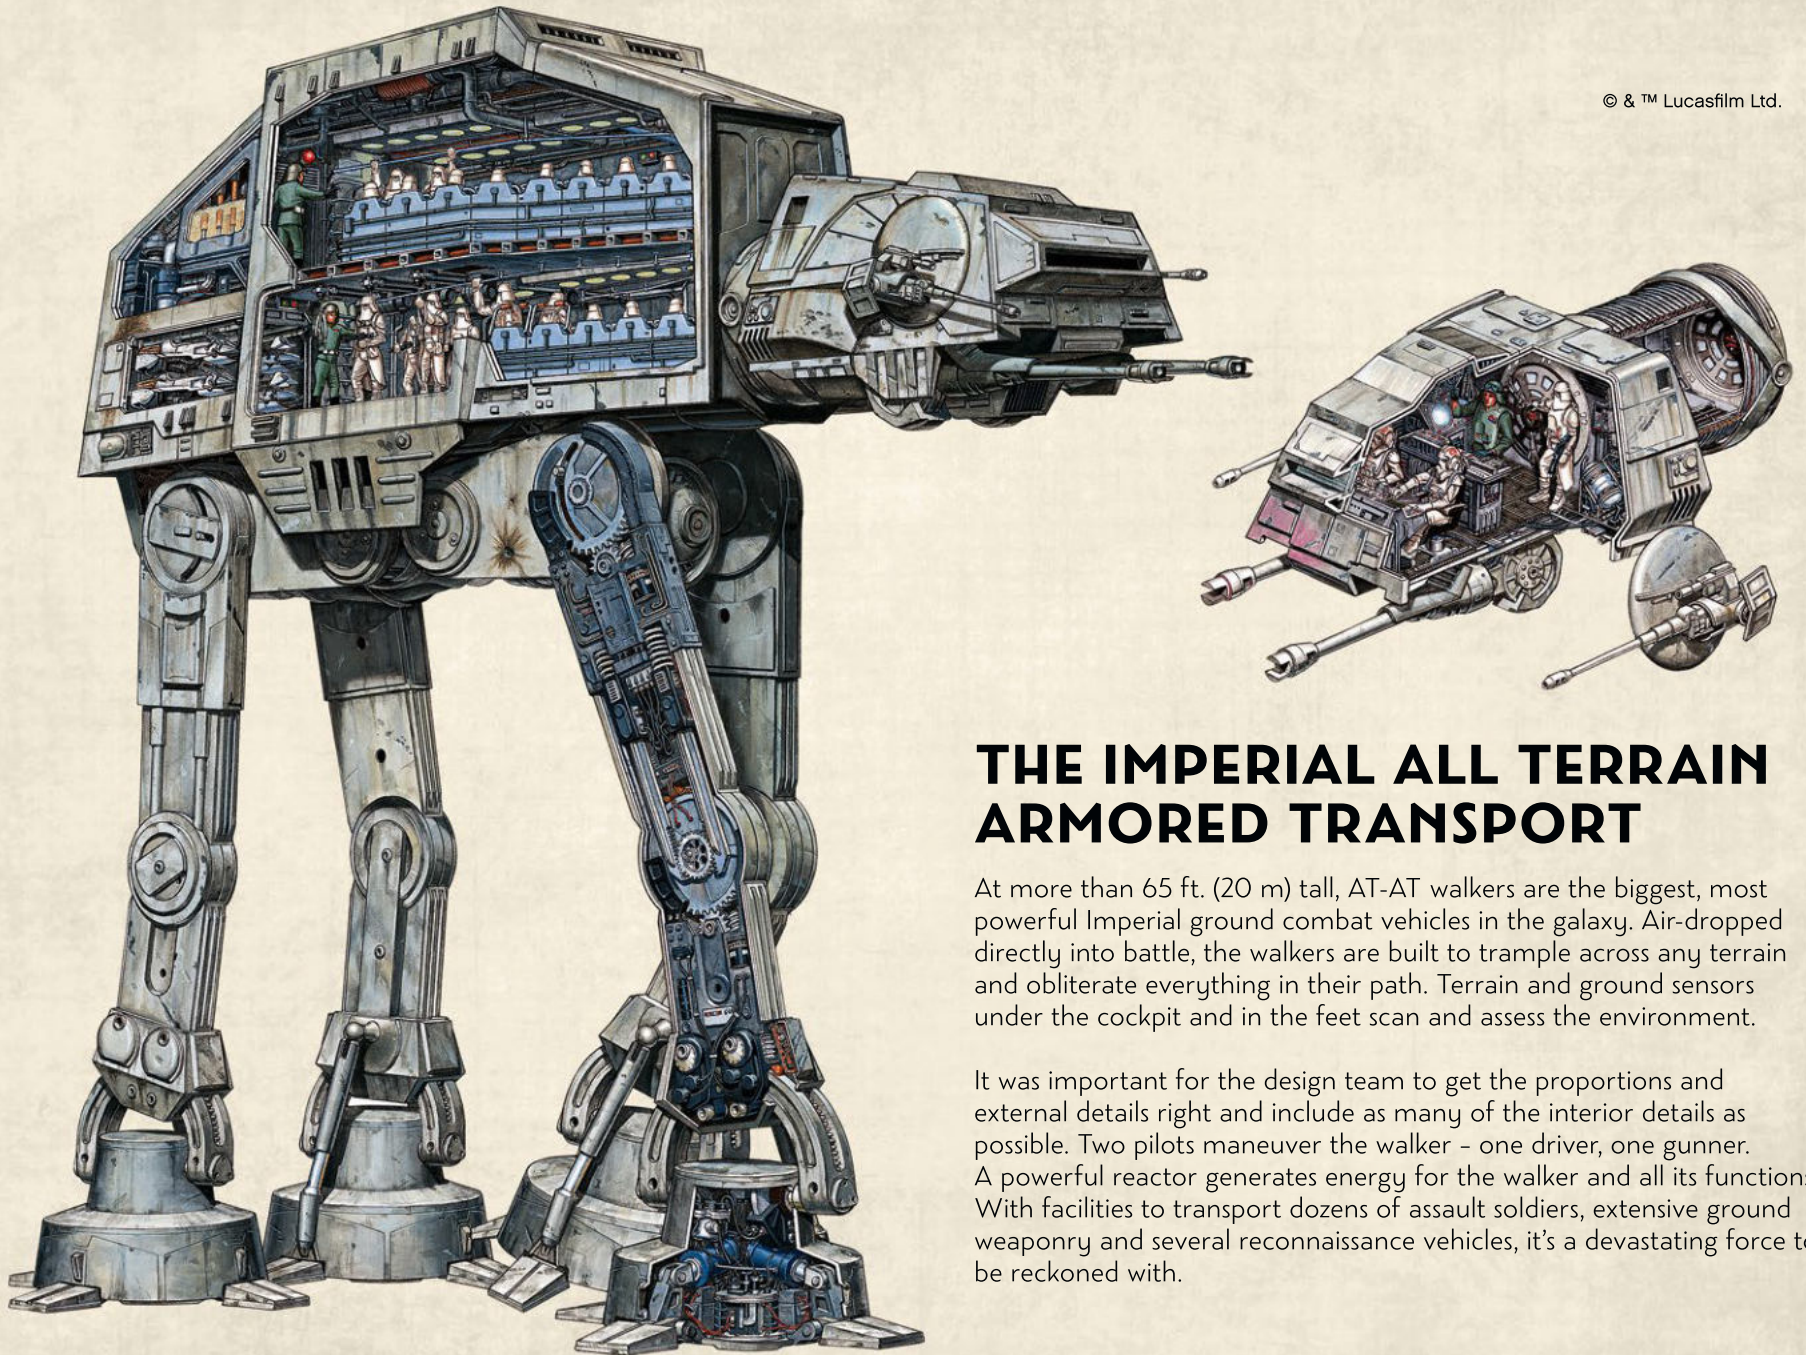

TE DAMOS LA BIENVENIDA A HOTH

Pueden ser tiempos oscuros para la Rebelión, aunque es un gran momento en la historia de LEGO® Star Wars ya que presentamos uno de los modelos Ultimate Collector Series más solicitados (si no es que el más solicitado) de los últimos años: el caminante AT-AT imperial de Star Wars: El Imperio Contraataca.

Buscamos nuevas técnicas de construcción por toda la galaxia para darte un auténtico modelo a escala de minifigura que hiciera justicia a su imponente contraparte de la película y se viera asombroso expuesto en tu hogar u oficina. Queremos que sientas la emoción de tener a la flota estelar imperial pisándote los talones mientras descubres lo formidable que es el poder del lado oscuro. Y con sus más de 6700 piezas, ¡quizá te dé tiempo de mirar la saga completa mientras lo construyes!

Jens Kronvold Frederiksen
Coordinador de diseño y director creativo
LEGO® Star Wars™

THE IMPERIAL ALL TERRAIN ARMORED TRANSPORT

At more than 65 ft. (20 m) tall, AT-AT walkers are the biggest, most powerful Imperial ground combat vehicles in the galaxy. Air-dropped directly into battle, the walkers are built to trample across any terrain and obliterate everything in their path. Terrain and ground sensors under the cockpit and in the feet scan and assess the environment.

It was important for the design team to get the proportions and external details right and include as many of the interior details as possible. Two pilots maneuver the walker - one driver, one gunner. A powerful reactor generates energy for the walker and all its functions. With facilities to transport dozens of assault soldiers, extensive ground weaponry and several reconnaissance vehicles, it's a devastating force to be reckoned with.

LE TRANSPORT BLINDÉ TOUT-TERRAIN IMPÉRIAL

S'élevant à plus de 20 m (65 pi) de haut, les marcheurs TB-TT sont les véhicules de combat impériaux terrestres les plus grands et les plus puissants de la galaxie. Largués directement sur le champ de bataille, les marcheurs sont conçus pour fouler tout type de terrain et anéantir tout sur leur passage. Des capteurs de terrain et de sol situés sous la cabine et dans les pieds balaient et évaluent l'environnement.

Il était important pour l'équipe de conception de respecter les proportions et les détails extérieurs ainsi que d'inclure autant de détails intérieurs que possible. Deux personnes manœuvrent le marcheur – un pilote et un canonier. Un puissant réacteur génère l'énergie nécessaire pour alimenter le marcheur et toutes ses fonctions. Avec des installations permettant de transporter des dizaines de soldats d'assaut, un important armement terrestre et plusieurs véhicules de reconnaissance, le marcheur représente une force dévastatrice à ne pas sous-estimer.

TRANSPORTE BLINDADO TODOTERRENO IMPERIAL

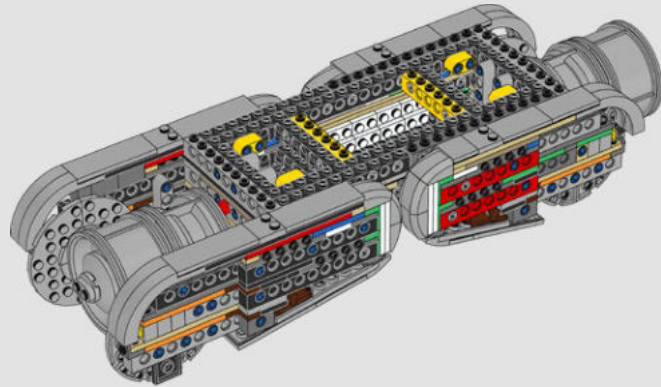

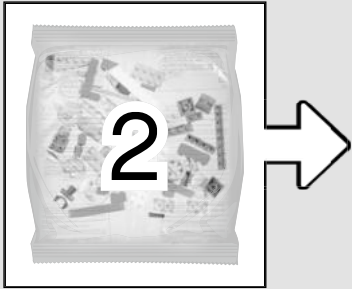

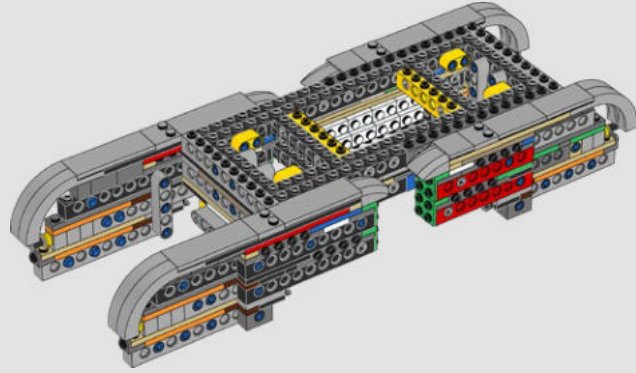

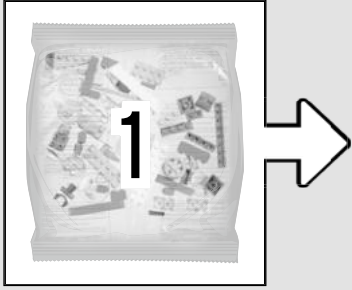

Con una altura superior a los 20 m, los caminantes AT-AT son los vehículos imperiales de combate terrestre más grandes y poderosos de toda la galaxia. Lanzados desde el aire directo al campo de batalla, los caminantes están diseñados para abrirse paso en cualquier terreno y aniquilar todo lo que se ponga en su camino. Sensores del terreno y el suelo localizados debajo de la cabina y en las patas escanean y evalúan el entorno.

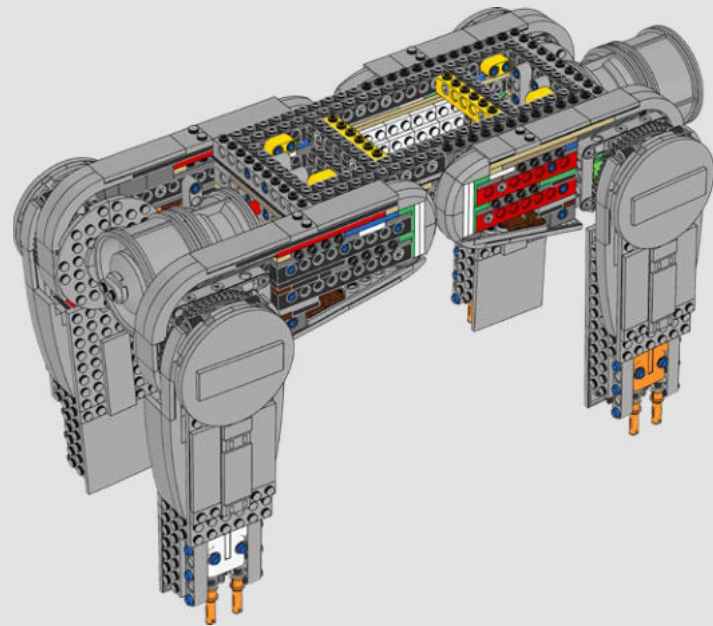

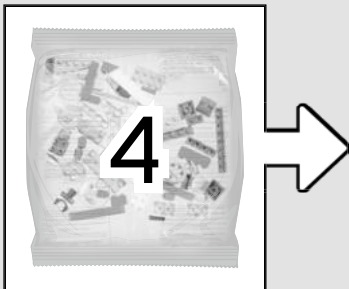

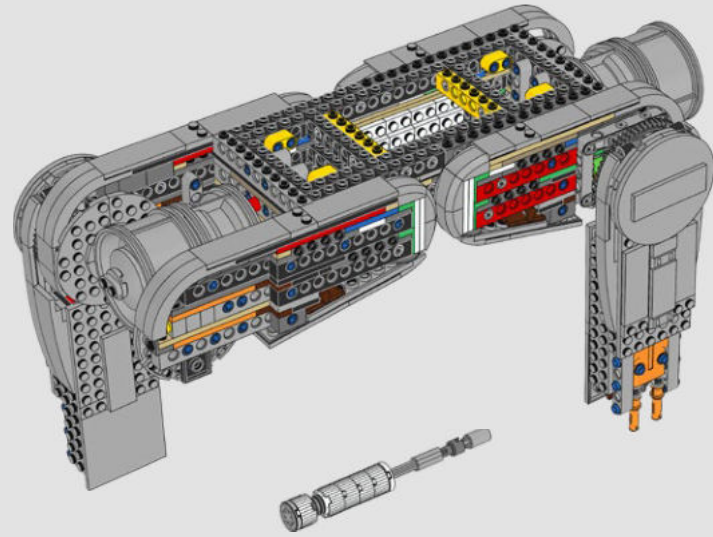

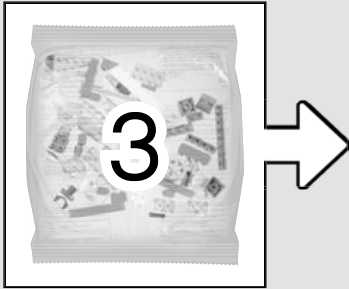

Para el equipo de diseño era muy importante capturar correctamente las proporciones y los detalles externos, así como incluir tantos detalles del interior como fuera posible. Dos pilotos maniobran el caminante: un conductor y un artillero. Un poderoso reactor genera energía para el caminante y todas sus funciones. Equipados con todo lo necesario para transportar decenas de soldados de asalto, un amplio arsenal para tropas de tierra y varios vehículos de reconocimiento, son una fuerza devastadora que no hay que subestimar.
