## FROM THE LEGO® DESIGN TEAM

*"Transformers was what inspired me to become a toy designer, so I was very excited to use LEGO bricks to bring Optimus to life. There were many challenges in designing this model to make it both stable, dynamic and faithful to the design of Optimus. The most fun challenge, however, was getting him to change between modes without disassembly. To do this I built block shapes of the major components, adjusting proportions to match both the robot and the vehicle. The transformation had to be as simple as possible without compromising the look of either mode."*

- Joseph Patrick Kyde, Senior Designer

## UN MOT DE L'ÉQUIPE DE CONCEPTION LEGO®

*« Transformers est ce qui m'a inspiré à devenir concepteur de jouets. J'étais donc très emballé à l'idée d'utiliser des briques LEGO pour donner vie à Optimus. La conception de ce modèle a posé bien des difficultés pour le rendre à la fois stable, dynamique et fidèle au style d'Optimus. Le défi le plus amusant, cependant, a été de parvenir à le faire changer de mode sans le démonter. Pour ce faire, j'ai construit des blocs formés des principaux composants, en ajustant les proportions pour qu'elles conviennent à la fois au robot et au véhicule. La transformation devait être aussi simple que possible sans compromettre l'aspect des deux modes. »*

- Joseph Patrick Kyde, concepteur principal

## IMPRESIONES DEL EQUIPO DE DISEÑO DE LEGO®

*"Los Transformers me inspiraron para convertirme en diseñador de juguetes, así que me entusiasmó la idea de usar bricks LEGO para darle vida a Optimus. Tuvimos que resolver muchos problemas al diseñar el modelo para lograr que fuera estable, dinámico y fiel al aspecto del personaje. El reto más divertido, no obstante, fue lograr que cambiara de un modo a otro sin desarmarlo. Para ello, construí los principales componentes como si fueran bloques, ajustando las proporciones para que coincidieran tanto con las del robot como con las del vehículo. La transformación tenía que ser lo más sencilla posible, sin comprometer el aspecto en ninguno de los modos".*

- Joseph Patrick Kyde, diseñador sénior

The original toy's hands had to be detached and could be stored in his chest in vehicle mode. In this LEGO® model, the hands are designed to fold into the wheel wells instead of detaching.

Les mains du jouet original devaient être détachées et rangées dans son torse en mode véhicule. Dans ce modèle LEGO®, les mains sont conçues pour se replier dans les passages de roue et n'ont pas besoin d'être détachées.

En el primer juguete, había que desarmar las manos y guardarlas dentro del pecho en el modo vehículo. En este modelo LEGO®, las manos están diseñadas para plegarse en los huecos de las ruedas, lo que evita la necesidad de quitarlas.
