MADE WITH LIEBHERR

This model of one of the world's biggest conventional crawler cranes nearly requires a construction site of its own. Designed in partnership with Liebherr, the LEGO® Technic Liebherr LR 13000 Crawler Crane is the largest ever LEGO Technic model in all dimensional measurements. Design details and LEGO Technic Control+ App functions mirror real-life features: Six XL angular motors and two smart hubs let you drive the crane,

turn the superstructure, control the boom, jib and hook. 24 new weight elements provide nearly 1 kg (2.2 lbs.) of counterweight. Sensors and alarms generate warnings if you approach the safety limits of the crane. At 100 cm (39 in.) high, 111 cm (43.5 in.) long and 28 cm (11 in.) wide, it is the ultimate construction experience.
