*1 Actual results may vary based on environmental conditions, way of usage etc.

**2 Tested with vacuum only mode in the highest suction power setting.

***3 Tested with the lowest suction power and mop wetness setting in vac & mop mode.

****4 Compared to the station size of the HomeRun 3000 series XU3100.

Highlights

Vacuum and mop in one go

The robot vacuums and mops hard floors in one go to tackle the fine layer of dust that builds up on floors every day. Removing more fine dust than vacuuming alone, ensuring clean feet even when barefoot.

Auto-Empty station

Indulge in 70 days* of hassle-free convenience with the stylish Auto-Empty station. The robot empties itself automatically into the Auto-Empty station. The station features a 3.0 liter S-bag that can hold up to 70 days worth of dust and other dirt, to save you the hassle of emptying. The universal S-bag can be hygienically disposed without a cloud of dust - ideal for asthma and allergy sufferers.

Strong suction power

The robot's strong suction power can pick up large dirt, like crumbs and pet hair. It takes care of the everyday dirt build-up on the floor, as well as removing finer dust from carpets and rugs*.

Carpet boost

The robot automatically boosts suction power when it has driven onto a carpet or rug to capture fine dust particles hidden deep inside the carpet*.

LDS radar navigation

Transform your cleaning experience with our robot vacuum's LDS radar technology, offering 360-degree scanning for a meticulously mapped home. Navigate effortlessly through multiple rooms with unmatched precision, ensuring thorough floor coverage. Enjoy a spotless environment, even in low-light conditions.

Long battery run time

Experience uninterrupted cleaning with no battery worry, offering up to 130 minutes* of runtime, enough for up to 120 m² on a single charge. When the battery runs low, the robot will automatically to recharge. Once the battery is charged, it will return to the place where it stopped to resume the cleaning.

Stylish and compact design

Enjoy the sleek design of our station, saving you over 30%* in space while fitting perfectly into your home. Available in two designs, the sophisticated Midnight Blue (XU2100/10) or the pristine Arctic White (XU2100/20).

HomeRun App

The Philips HomeRun robot app has been designed to be intuitive and easy to use. It features step-by-step guidance and helpful videos to ensure you get the very best out of your robot. The app communicates with your robot to control, report and update on its cleaning performance wherever you are, showing in real time where the robot has cleaned. Specify how you would like to clean each room, let the robot know where it can't go or schedule a cleaning session so you can come home to a spotless floor.

Specifications

Robot highlights

Vacuum and Mop in one go: Yes
Mopping technology: Passive mop
Suction power (maximum): 2700 Pa
Type of navigation: LDS Laser
Small obstacle detection: No
Battery capacity: 2600 mAh
Battery run time (maximum): Up to 130 minutes
Color: Midnight Blue
Noise level (minimum): ≤ 66 dB

App

App name: Philips HomeRun
Connect via Wi-Fi: Yes, dual band
Languages in the app: Covering 24 Languages
How to use videos: Yes
Quick mapping function: Yes
