Roborock H5

Feel the power, not the weight.

True power. Deep clean.

The Roborock H5 delivers up to 158 AW of whole-machine suction power, certified by TUV Rheinland, ideal for deep cleaning tasks.

Up to

158 AW

Whole-machine suction ¹

1. Tested by TUV Rheinland based on IEC 62885-4:2020/5.8 standards. Tested without accessories, in Max mode, and with testing an equipment diameter of 10mm. Actual results may vary depending on usage conditions.

Lightweight for everyday convenience.

1.55 kg
vacuum body

1.82 kg
with Motorized Mini Brush

What goes into the vacuum, stays in the vacuum.

Up to **99.997%**
retention of microscopic dust ¹

1. Tested by TUV Rheinland based on IEC 62885-4:2020/5.11 standards. Tested in Max mode for capturing particles of 0.3-10 microns. Actual results may vary depending on usage conditions.

Designed for minimal clogging.

The meticulously calculated and simulated 9-cone cyclone separation system generates a strong centrifugal force that settles dust, debris, and other large particles into the dustbin, ensuring that air passes through the filter unobstructed.

9-cyclone

dust separation system

Vacuum on and on, and on.

With a power-dense battery, Roborock H5 provides up to 60 minutes of non-stop vacuuming per charge.

Up to **60 minutes**
battery run time ¹

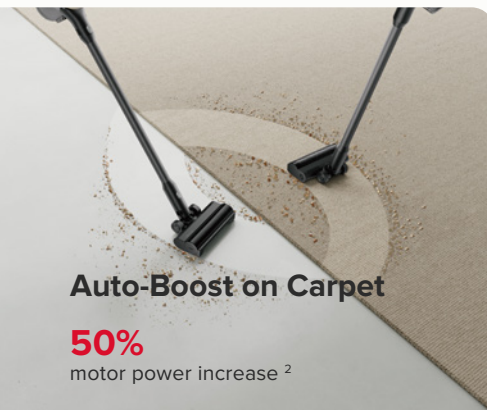

1. Based on Roborock internal test with 2-in-1 Crevice Brush in Eco mode. Actual battery life may vary depending on usage conditions.

Multi-surface brush for floors and carpets.

Roborock H5 combines soft velvet bristles with a nylon brush head, ensuring effective cleaning for both floors and carpets. ¹

In standard mode, when the main brush is on the carpet, it automatically activates carpet boost, achieving better cleanliness for removing dust and hair from the carpet. ³

1. The Multi-surface Brush can only be used on carpets with a pile height of less than 2.5 cm (0.98 inches). Actual performance may vary depending on usage conditions.
2. Based on Roborock internal test in Standard mode. Actual power increase may vary depending on usage conditions.
3. Carpet Boost is only available on Standard mode. This function might not trigger on smooth mats or carpets with shorter piles. Actual results may vary depending on usage conditions.

Auto-Boost on Carpet

50%
motor power increase ²

Motorized Mini Brush

5000 times/min patting frequency to remove dust mite ¹

1. Based on Roborock internal test in Standard mode. Motorized Mini Brush has a rotation speed of up to 2500rpm. With two nylon bristle strips on the brush, the Motorized Mini Brush is able to pat 5000 times per minute. Actual results may vary depending on usage conditions.

2-In-1 Crevice Brush

Effortlessly switch from brushing your car to vacuuming hard-to-reach corners with this 2-in-1 crevice brush.
