

# NAVEE Electric Scooter ST3 Pro

(EU version)

## The World's Best Design Inspired by Cyberpunk

Inspired by cyberpunk aesthetics, the scooter boasts a sleek, futuristic design with customizable ambient lighting. This distinctive feature enhances its high-tech style and makes each ride uniquely yours.

## Ultra Power with 1350W Max. Motor

With a peak motor power of 1350W and rear-wheel drive, this scooter delivers exceptional performance and acceleration. Its 48V system handles slopes up to 28%, ensuring smooth and reliable performance on various terrains.

## Damping Arm™ Suspension System

Master any terrain with a smooth, stable ride, thanks to our advanced dual-sided polymer damping arm suspension system.

## Max. Range Up to 75 KM– TÜV Certified

Equipped with high-safety 18650 lithium batteries, the scooter provides up to 75 KM of range, validated by TÜV Rheinland for true range at max. speed.

## Automotive-Grade Energy Recovery System

While riding, brake or ease off the throttle to activate energy regeneration, extending your scooter's range. Adjust the recovery level in the app for a personalized experience.

## Triple Braking System for Enhanced Safety

With front drum and rear disc brakes plus rear EABS, this scooter ensures short stopping distances and controlled stops for a safer, more stable ride.

## 10" Self-Healing Tubeless Tires

The 10" self-healing tubeless tires automatically seal punctures smaller than 4mm, ensuring a smooth and flat-free ride.

## Stylish Ambient Lighting with Customized Modes

Enhance nighttime safety with custom ambient lighting and 15 exciting modes, adjustable via the NAVEE app. Enjoy better visibility while adding a fun and stylish touch to your ride.

## Distinctive Carbon Fiber

Modern design with a lightweight, carbon fiber texture on the pedal sides for added style and visual appeal.

## Ergonomic Handlebars for Comfort

Experience easier handling and reduced fatigue with ergonomically designed handlebars, making long rides more comfortable and effortless.

## Advanced TCS for Safer Rides

The Traction Control System (TCS) boosts stability and safety by improving traction on slippery roads, ensuring smoother and more secure rides.

## Apple Find My

Thanks to Apple Find My network, you can easily keep track of your scooter - even if it's offline. You can quickly locate your scooter when needed via the Find My App on your iPhone.

## Durable Steel Frame for Safety and Reliability

Our scooter features a sturdy automotive-grade steel frame that can support up to 1,000kg, ensuring safety and reliability for a smooth ride every time.

## Proximity Unlock

Unlock with Bluetooth when nearby for hands-free access, and enjoy automatic locking when away for easy use and enhanced security.

## Built-in Turning Indicators

Equipped with E-Mark certified integrated front and rear turn signal lights, which means they comply with stringent European safety standards.
