** Compared to Philips Airfryer HD9200

****Cooking of 1kg of fresh fries with 1 tablespoon of oil vs traditional deep frying with 2L

*****Energy cost of cooking one chicken (AF setting 160C no preheat) or salmon filet (200C, no preheat) vs. using an A class oven. Average percentage based on internal lab measurement with products HD9280, HD9650, HD9270, HD9285, HD9252, HD9200, HD9255, HD9880.

Highlights

Rapid CombiAir technology

Our unique, patented technology delivers the fastest airflow* with adjustable air speed for even cooking. Choose low airflow to gently sous-vide steak, slow cook stews, and braise meats. High, low and dynamic airflow options ensure your food is always deliciously tender on the inside and your preferred level of crispness outside.

Dishwasher safe

We haven't just made cooking easier. We also improved cleaning with a new design. A single motion effortlessly wipes the inside clean to save time and hassle. All parts are also dishwasher safe.

22 cooking functions

Cook with confidence — from crispy french fries and tender chicken wings to crunchy veggie chips and decadent desserts. This air fryer does it all: fry, grill, roast, bake, braise, slow cook, broil, dehydrate, defrost, and more!

HomeID app

Find cooking and coffee inspiration with more than 500+ recipes and tips for your home.

Healthy cooking with hot air

Reassuringly healthy: Your dishes are prepared the way you want with up to 99% less added fat.**

Fast and energy saving

Use up to 70% less energy and cook up to 40% faster with a Philips air fryer compared to your oven.***

HomeID app

Choose a recipe in the HomeID app and send it to the Airfryer. Monitor the progress of your creation from the comfort of your couch.

Extra-large capacity

Cook more food in less time. Preparing large portions or meals for more than 7 people is easier and more convenient than ever with extra-large 2 kg/8.3 liter capacity.
