Coravin[®] Timeless Wine Preservation Systems

Pour wine without removing the cork and preserve the remaining bottle for weeks, months, or even years. Excite and entertain guests with a wide variety of wines by the glass and ensure that the last glass tastes as amazing as the first.

1. Insert

Align the SmartClamps™ over the neck of bottle and push down firmly in one fluid motion until the needle is fully inserted.

2. Tip

Tilt the bottle until the Spout is over the glass and the bottom of the bottle is raised higher than the Spout.

3. Pour

Quickly press and release the Trigger to pour. Tip the bottle back up to stop the pour.

4. Remove

Remove the System by pulling upward in one fluid motion until the needle and SmartClamps™ are removed from the bottle. Store the bottle in a cool, dark place to maintain optimal freshness.

Coravin[®] 3C's

for after service care

CLEAR

Quickly press and release the button to clear the needle of wine residue.

CLEAN

Think of this device like a wine glass—no one wants to drink from a dirty glass.

Regularly clean the system by running warm water through the spout and out of the needle for several seconds. Quickly press and release the trigger to clear any water from the needle. Dry with a soft cloth.

CELLAR

Always cellar your bottle on its side in a cool, dark space.
