Battery Installation

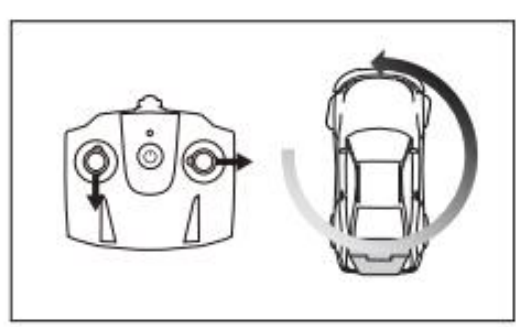

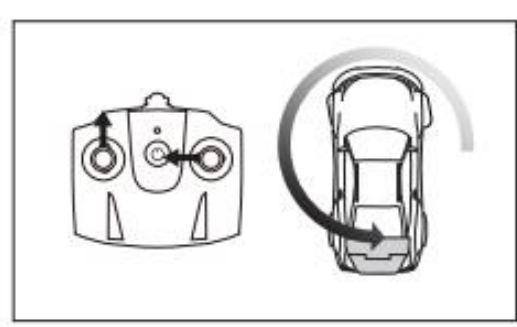

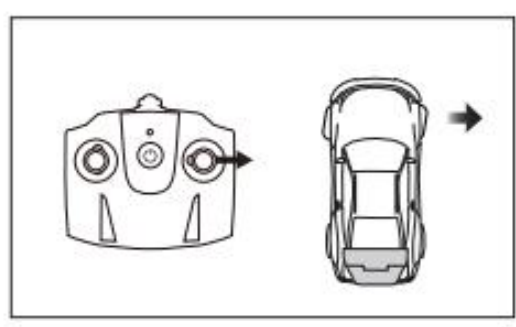

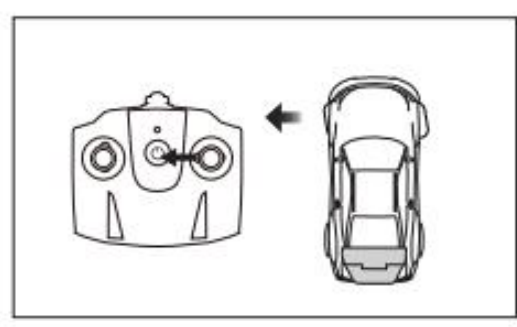

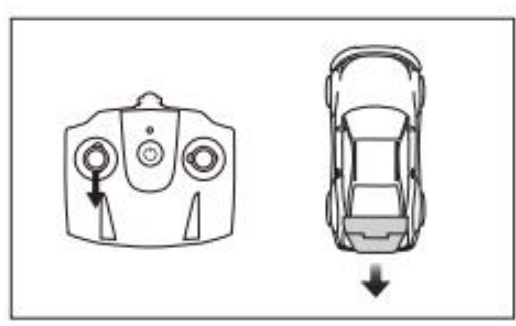

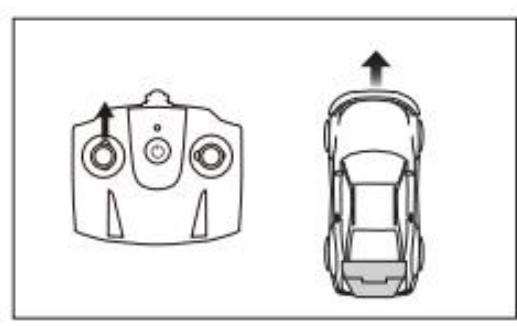

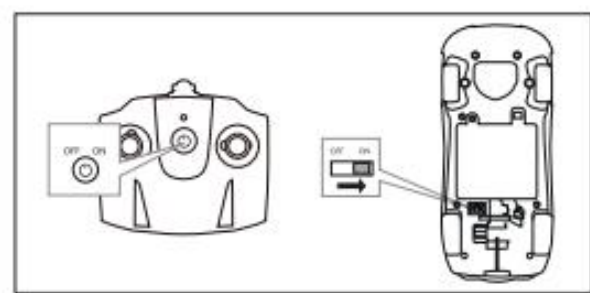

The diagram is divided into two sections. The top section shows the RC car's battery compartment installation in six steps: 1. Lifting the cover, 2. Flipping the cover to 'ON', 3. Inserting three AA batteries, 4. Pushing the batteries down, 5. Closing the cover, and 6. Locking the cover. The bottom section shows the remote control's battery installation in four steps: 1. Sliding the cover open, 2. Inserting two AA batteries, 3. Pushing the batteries into the compartment, and 4. Sliding the cover closed.

PROBLEM

SOLUTION

Can you confirm the functions of the remote control

The below graph shows this information

PROBLEM SOLUTION

The car will not go in a straight line	If the car doesn't go in a straight line, use the tuning needle under the front of the car to fine-tune the direction.
If the car slows down	Please charge or change the batteries, the cars perform best with fully charged batteries* <small>*Batteries should be replaced by an adult.</small>
The RC car has gathered some dirt	To clean, wipe gently with a wet cloth. Avoid use of heavy water
