

REVLON

KEEP THESE IMPORTANT SAFETY INSTRUCTIONS
Please read all instructions before using this appliance.
This appliance is intended for household use only.

WARNING: Do not use this appliance near

bathrooms, showers, basins or other vessels containing water.

WARNING: Power consumption of equipment in any off-mode and/or standby mode conditions shall not exceed 0,50W.

This appliance can be used by children aged from 8 years and above, and by persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved.

Children shall not play with the appliance. Cleaning and user maintenance shall not be made by children without supervision.

If the supply cord is damaged, it must be replaced by the manufacturer, its service agent or similarly qualified persons in order to avoid a hazard.

WARNING: Do not leave the appliance unattended. Do not allow bare skin or the eyes to come into contact with any heated surface on the appliance when in use. Do not place the appliance on any heat-sensitive surfaces when hot or plugged into the mains. Always unplug the appliance when not in use.

WARNING: Do not use this appliance on synthetic hair or wigs.

NOTE: Use on dry hair only.

WARNING: Should this product malfunction, do not attempt to repair it.

This appliance has no user-serviceable parts or components.

PRODUCT FEATURES

AUTO SHUTOFF
This tool will automatically shut itself off if it hasn't been used for an hour.

AUTOMATIC WORLDWIDE VOLTAGE
This appliance will automatically adjust to the proper voltage. Use plug adaptor depending on which region you are in.

CERAMIC TOURMALINE BARREL
Helps boost hair shine and reduce damage from overstyling with even heat distribution that penetrates hair quickly.

HEAT SETTINGS
Hair Texture Curl Type Temperature TriGuard™

Ultra Fine/Chemically Treated Hair Refresh 120° C •

Fine Hair Short Curls 140° C •

Fine Hair Waves 160° C •

Average/Medium Hair Classic Curls 200° C •

Thick Hair Defined Curls 220° C •

OPERATING THE STYLING TOOL
Plug your styling tool into an electrical outlet. Push the Power Button to turn it on, then push it again to select a temperature setting. The selected temp will begin to flash. When the temp stops flashing it's ready to use. Once the styling is complete, push the Power Button and unplug it.

IMPORTANT: Styling hair for the first time on a high setting may damage your hair. Always start with the LOWEST heat setting and test on a small section of hair for 10 to 30 seconds. If you want to use a higher heat setting, GRADUALLY increase the temperature. Use only as much heat as you need for effective styling. Over time, using excessive heat can result in hair damage. For best results, use a styling tip.

NOTE: During the first few minutes of initial use, you may notice smoke and slight odor. This is normal and is not a cause for concern.

OPERATING THE STYLING TOOL
Plug your styling tool into an electrical outlet. Push the Power Button to turn it on, then push it again to select a temperature setting. The selected temp will begin to flash. When the temp stops flashing it's ready to use. Once the styling is complete, push the Power Button and unplug it.
