1

ERATO

BEFORE YOU START

Please insert earphones into charging case and charge for approx. 2 hours to fully charge before using for the first time.
Please see CHARGING section for instructions.

PERFECT FIT

For optimal comfort and sound quality please select the FitSeal™ sleeves and silicone tips that best suit your ears. Please match the FitSeal™ sleeve to the correct earphones, "L" for left and "R" for right.

Notch
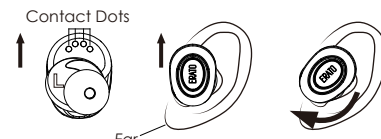

Left Earphone
Master

Right Earphone

Tip: The FitSeal™ sleeve will need to hook under the earphone notch to be secured.
Note: You may need to try different size combinations for your left and right ear.
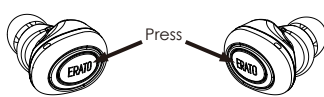

WEARING

Check both earphones and locate the "R" for right and "L" for left, and take notice of the 4 contact dots. Gently insert one earphone into your ear with the 4 contact dots pointing upwards toward your ear and gently twist the earphone down towards your earlobe, do the same for the second earphone. The fit should be snug and secure in your ear.

CONNECTING

1. On your device
   • Verify Bluetooth is ON
   • Verify Bluetooth is actively scanning for devices.
2. LEFT earphone, long press button for 5 seconds. Listen for:
   • "Power on"
   • "Pairing"
3. On your device select "MUSE 5"
4. LEFT earphone listen for:
   • "Paired"
   • "Your headset is connected"
5. RIGHT earphone, long press button for 2 seconds. Listen for:
   • "Power on" and a beep
   • "True wireless stereo connected" – indicating successful pairing to LEFT earphone

Note: Only the left earphone will connect to your device. The right will connect to the left. Only the left may be used as a single headset.

Press

CONTROLS

The MUSE 5 can perform a wide range of functions with just one button on each earphone, so you can freely control your device without taking it out of your pocket.

MODES

• **Stand-by Mode** – When no audio is active or music is paused.
• **Media Mode** – When music or video are active.

3

ERATO

• **Hands-free Mode** – When receiving incoming call or during phone call.
Note: During hands-free mode, only the LEFT earphone will be active. This is a safety feature built into the MUSE 5.

POWERING ON
1. Long press LEFT button for 2 seconds, listen for:
   • "Power on" followed by a beep
   • "Your headset is connected"
2. Long press RIGHT earphone for 2 seconds, listen for:
   • "Power on" followed by a beep
   • "True wireless stereo connected" – indicating successful pairing to LEFT earphone

POWERING OFF
• Insert into charging case and earphones will automatically power off.
• From Stand-by Mode, press and hold for 2 seconds either LEFT or RIGHT buttons

Answering Incoming Call
• Press LEFT button once

Rejecting and Ending Call
• Press and hold LEFT button for 2 seconds

Increase/Decrease Hands-Free Volume
• Only can be adjusted by your host devices (Phones or pads)

Activating Siri/Google Now *(for supported devices only)*
• From Stand-by Mode, double press LEFT or RIGHT button

Playing and Pausing Music
• During Media Mode, press LEFT or RIGHT button to play/pause media

Increase/Decrease Media Volume
• Increase: During Media Mode, double press on RIGHT button.
  2 beep indicates volume are at max level.

4

ERATO

• Decrease: During Media Mode, double press on LEFT button.
Next/Previous Song
• Next Song: During Media Mode, long press RIGHT button for 2 seconds
• Previous Song: During Media Mode, long press LEFT button for 2 seconds

Tip: It is recommended to set volume at a moderate level for longer battery life. Using the earphones at a high level will result in shorter battery life.

ERATOSURROUND™

Using DSP (Digital Sound Processing) technology in our true wireless earphones, we can restore the spatial distance missing in traditional earphones. Calibrated with our micro-driver and its acoustic chamber, ERATOSURROUND™ can reduce sound image distortion to create a more accurate sound.

• **3D Normal** – simulates surround sound of a typical room
• **3D Wide** – simulates surround sound of a concert hall

CHANGING ERATOSURROUND™ MODES
From Stand-by Mode, press LEFT button 4 times. The modes will cycle starting from 3D Normal to 3D Wide to 3D Disable.

| Modes	LED Notifications/Sound
3D Normal (Default)	2 red flashes/2 beeps
3D Wide Enable	3 red flashes/3 beeps
3D Disable	4 red flashes/4 beeps

5

ERATO

WATCHING VIDEOS

Although the MUSE 5 are mainly designed for listening to music, it is compatible with certain iOS and Android apps for watching videos. We use the latest CSR technology and aptX codec in our earphones, however in True Wireless stereo earphones, data have to be transmitted to each earphone simultaneously instead of just once like traditional Bluetooth earbuds. This can cause latency during video playback on devices and apps.
To improve latency, disable ERATOSUR-ROUND™ by changing mode to 3D Disable for a better viewing experience. See instructions above.
Results will vary from device and app.

CHARGING

To charge your charging case, simply insert the micro USB cable into the back of the case, and the USB into a USB power supply.
