Overview

Brother iPrint&Scan allows you to use features of your Brother machine directly from your Windows Phone®.

Brother iPrint&Scan supports the following functions:

- Print
- Scan

If your machine does not have a printer or scanner, you cannot use the related print or scan functions of Brother iPrint&Scan.

Download Brother iPrint&Scan from the Windows Phone® Store (Marketplace)

You can install Brother iPrint&Scan from the Windows Phone® Store (Marketplace). To take advantage of all the features supported by Brother iPrint&Scan, make sure you are using the latest version.

Device Connections

Connect your mobile device to your Brother machine using one of the following connection methods:

Wi-Fi®

To configure your Brother machine for a Wi-Fi connection, see your machine's Quick Setup Guide.

Wi-Fi Direct®

To configure your Brother machine to a Wi-Fi Direct® network, download any one of the following guides from your model's **Manuals** page on the Brother Solutions Center at <http://support.brother.com>.

- Wi-Fi Direct Guide
- Software and Network User's Guide
- Online User's Guide

Your Brother machine must support Wi-Fi Direct®.

Depending on your Brother machine and mobile device, supported connection methods may vary.

Set a Device for Print

If a different machine is selected or if **Device Is Not Selected** is displayed, follow these steps:

- 1 Tap .
- 2 Tap **Printer**.
- 3 The application will search and display a list of available machines. Tap your machine in the list.

 If your machine is not displayed in the list, you may be able to find it by tapping  and then entering your machine's IP address.

- 4 Set other options as needed.
- 5 Press the **back** button to exit the Print Settings screen.

 Tap the upper portion of your mobile device's screen to hide or show the operation buttons.

Icons

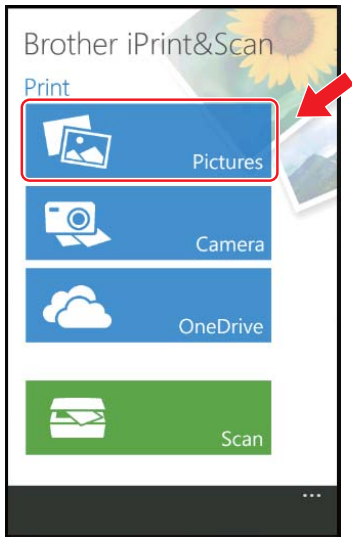

Settings

Print
