What You Can Do with Application Library

What You Can Do with Application Library 2

What You Can Do with Application Library

1A92-000

Application Library is a facility that makes it possible that frequently used operations such as printing a usual document and checking the consumables information as well as convenient functions are registered in the form of applications. You can execute these applications in one-touch button operation from the Home screen. Make the best use of Application Library for time reduction and operational accuracy enhancement.

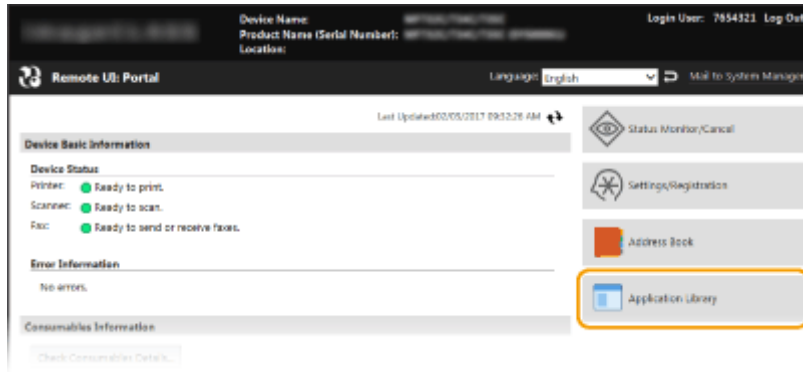

Available Applications

The available applications are listed below. These applications are preinstalled on the machine.

	"Print Template" (Print a usual document)
	"Standby Slide" (Display an arbitrary file content as a slide)
	"Scan to Preset Destination" (Scan an original and send it to a registered destination)
	"ID Card Copy (Simple)" (Simple version of ID card copy)
	"Consumables Information"
	"Copy (Eco)" (Save paper in a big copy job)
	"Copy (BleedReduce)" (Reduce bleed-through when copying on thin paper)

Making Settings for Application Library

Settings for Application Library need to be made from the Remote UI. Log in to the Remote UI in System Manager mode, and then in the Portal page, click [Application Library].

NOTE

- Initial settings need to be made depending on the application. When a prompt image appears on the operation panel, make settings from the Remote UI. On how to operate the Remote UI, see the User's Guide for the machine model you are using.

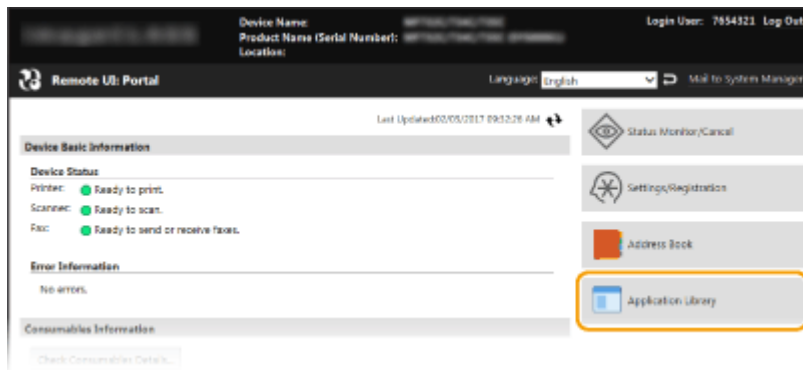

Managing Applications

Managing Applications	5
Print Template	7
Standby Slide	8
Scan to Preset Destination	10
ID Card Copy (Simple)	11
Consumables Information	12
Copy (Eco)	13
Copy (BleedReduce)	14

Managing Applications

Use the Remote UI to perform application management.

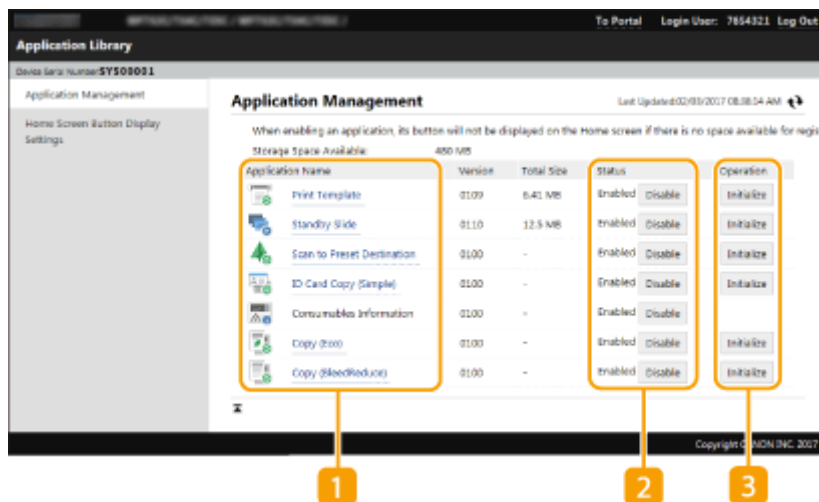

- 1 Start the Remote UI and log in to System Manager Mode.**
- 2 Click [Application Library] on the Portal page.**

► [Application Management] page appears. ► **Functions of [Application Management] Page(P. 5)**

Functions of [Application Management] Page

The [Application Management] page allows you to enable or disable each application and change the settings of each application.

1 [Application Name]

Displays a list of applications installed on the machine. When you click the link of an application in the [Application Name] list, the settings page for that application appears.

- **Print Template(P. 7)**
- **Standby Slide(P. 8)**
- **Scan to Preset Destination(P. 10)**
- **ID Card Copy (Simple)(P. 11)**

▶ **Consumables Information(P. 12)**

▶ **Copy (Eco)(P. 13)**

▶ **Copy (BleedReduce)(P. 14)**

2 [Status]

Enables or disables each application. Disabling an application hides the corresponding button on the Home screen.

3 [Operation]

Clicking [Initialize] returns the settings of the application to the factory defaults.

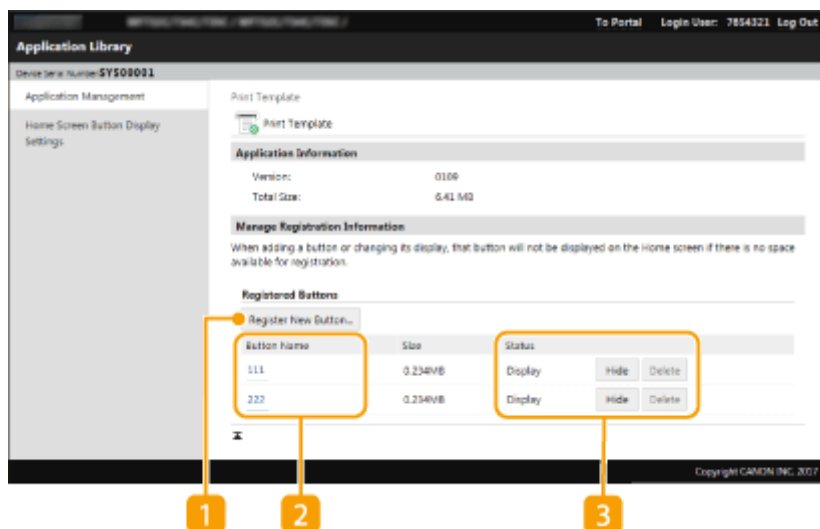

NOTE

- For some applications, the settings page may not be displayed depending on the browser you are using. If so, configure the settings in either of the following environment.
 - Internet Explorer: Ver. 10.0 or later
 - Safari: Ver. 6.0 or later

Print Template

1A92-002

You can quickly print an image or document that has been registered beforehand. Registering the template of a frequently used document, for example, allows you to print it quickly and easily whenever needed.

1 [Register New Button]

Opens the [Register New Button] page. In this page, you can set the paper size, the number of copies to print, and the button name to be displayed on the Home screen, etc.

2 [Button Name]

Displays a list of registered buttons. Clicking the link of a button name in the [Button Name] list opens the [Button Details] page, which allows you to change or duplicate the settings of the corresponding button.

3 [Status]

Displays or hide the button on the Home screen. If you want to delete the button, first hide it and then click [Delete].

NOTE

Files to print

- The file formats that can be registered are only JPEG and PDF.
- The maximum total size of files that can be registered is 48 MB.

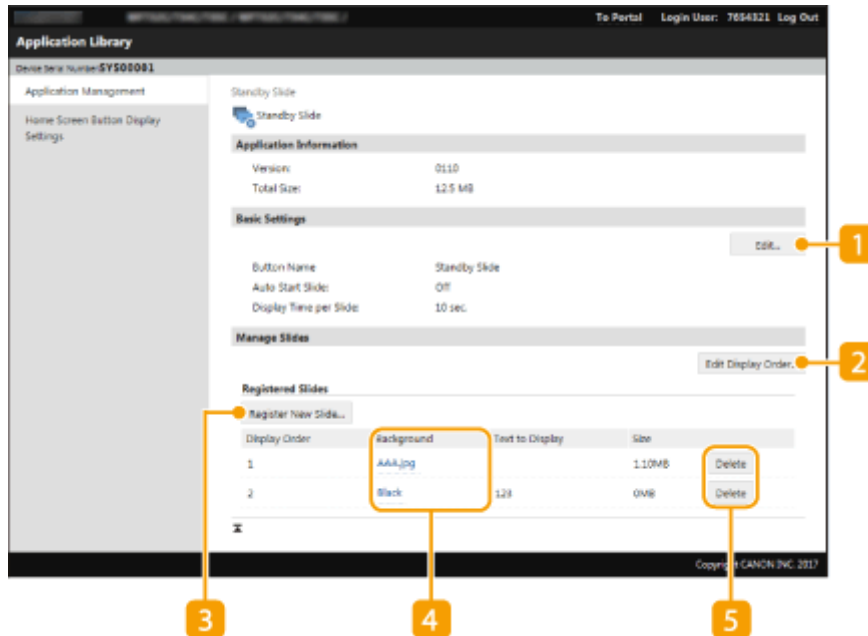

If you select [Custom] when configuring button settings

- Depending on your machine model, you cannot perform size registration in the [Register New Button] page or [Edit Button] page. If so, use the operation panel to register the desired custom size as <S1> in advance.
- If you specify [Use Custom Size Registered in Device], use the operation panel to register the desired custom size (<S1> to <S3>) in advance.

Standby Slide

1A92-003

You can register any desired image or text in the form of a slide and display it on the operation panel like a screen saver.

1 [Edit]

Opens the [Edit Basic Settings] page. In this page, you can change the button name, make a setting so that the Home screen display automatically switches to a slide display, and set the display time of each slide.

2 [Edit Display Order]

Opens the [Edit Display Order] page. In this page, you can select the check box of the slide whose display order you want to change and then adjust the display order.

3 [Register New Slide]

Opens the [Register New Slide] page. In this page, you can set any desired background image or color, and set characters to show on the slide.

4 [Background]

Displays the name of the color or image file specified to be used as slide background. Clicking the link of a file name in the [Background] list opens the [Slide Details] page, which allows you to change or duplicate the settings of the corresponding slide.

5 [Delete]

Deletes each registered slide.

NOTE

- Up to 20 slides can be registered.
- The file formats that can be registered are only JPEG and PNG.

- The maximum total size of files that can be registered is 48 MB.

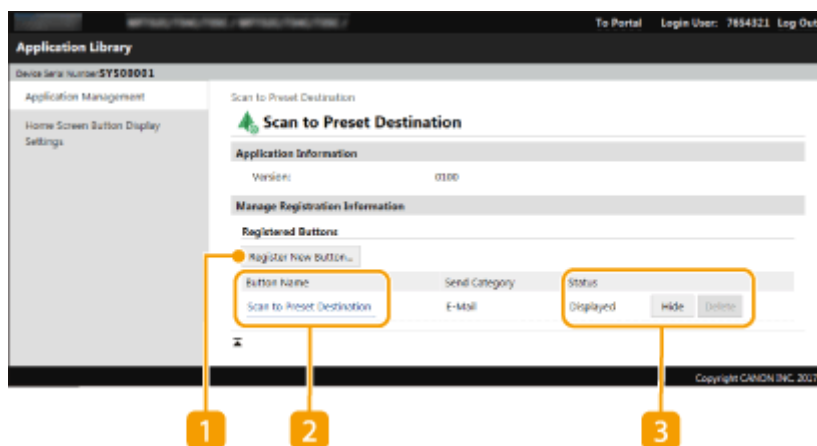

Scan to Preset Destination

1A92-004

You can perform, in one-touch operation, a sequence of operations beginning with scanning of an original and ending with sending/saving of scanned data. This eliminates the labor of making settings each time original scanning becomes necessary. By default, no destinations are registered, so you need to make settings to register necessary destinations before using this application.

NOTE

- This application is only available with machine models provided with scan function.

1 [Register New Button]

Opens the [Register New Button] page. In this page, you can set the destination, scan size, and button name to be displayed on the Home screen.

2 [Button Name]

Displays a list of registered buttons. Clicking the link of a button name in the [Button Name] list opens the [Button Details] page, which allows you to change or duplicate the settings of the corresponding button.

3 [Status]

Displays or hide the button on the Home screen. If you want to delete the button, first hide it and then click [Delete].

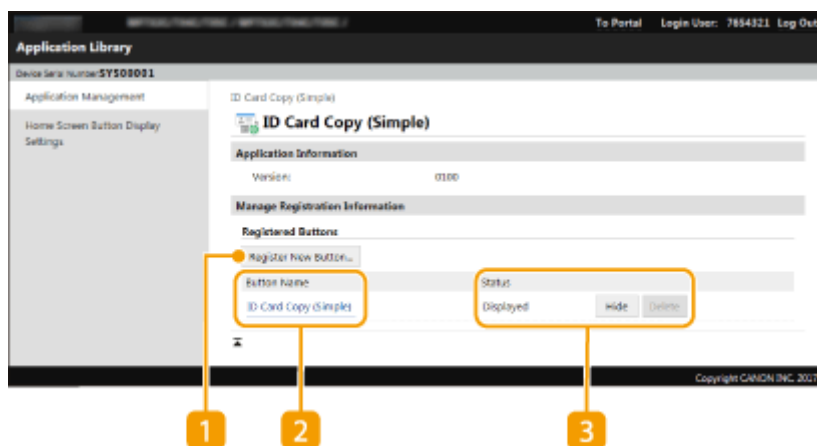

ID Card Copy (Simple)

1A92-005

You can perform "ID Card Copy" in one-touch operation. "ID Card Copy" is a function to copy, in the same size, the front and back sides of an ID card such as a driver's license or health insurance card, onto the same side of a paper sheet. This function is useful when copying ID cards is needed in a business procedure, a public administration procedure, and so on. You can register multiple buttons covering different numbers of copies to print or different density levels to apply, and select and use the best-suited button for the printing purpose or the type of the original.

NOTE

- This application is only available with machine models provided with copy function.

1 [Register New Button]

Opens the [Register New Button] page. In this page, you can specify the number of copies, the type of original, and the button name to be displayed on the Home screen.

2 [Button Name]

Displays a list of registered buttons. Clicking the link of a button name in the [Button Name] list opens the [Button Details] page, which allows you to change or duplicate the settings of the corresponding button.

3 [Status]

Displays or hide the button on the Home screen. If you want to delete the button, first hide it and then click [Delete].

Consumables Information

1A92-006

This application allows you to check the information on the consumables being used on the machine.

NOTE

- The button names used in Consumables Information are determined by default and cannot be changed.

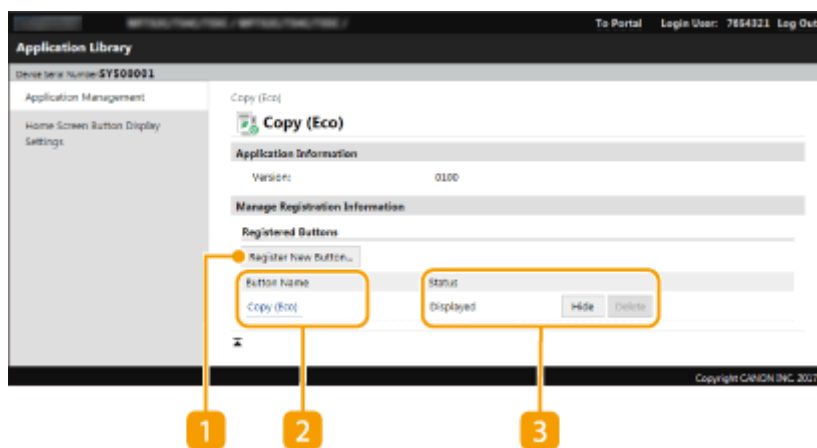

Copy (Eco)

1A92-007

You can register a command for combined use of 2-sided copying mode and N on 1 mode, and execute that command in one-touch operation. Use of this application allows you to save paper when doing a large copy job. You can register multiple buttons covering different numbers of copies to print or different density levels to apply, and select and use the best-suited button for the printing purpose or the type of the original.

NOTE

- This application is only available with machine models provided with copy function.

1 [Register New Button]

Opens the [Register New Button] page. In this page, you can specify the copy ratio, the N on 1 setting, and the button name to be displayed on the Home screen.

2 [Button Name]

Displays a list of registered buttons. Clicking the link of a button name in the [Button Name] list opens the [Button Details] page, which allows you to change or duplicate the settings of the corresponding button.

3 [Status]

Displays or hide the button on the Home screen. If you want to delete the button, first hide it and then click [Delete].

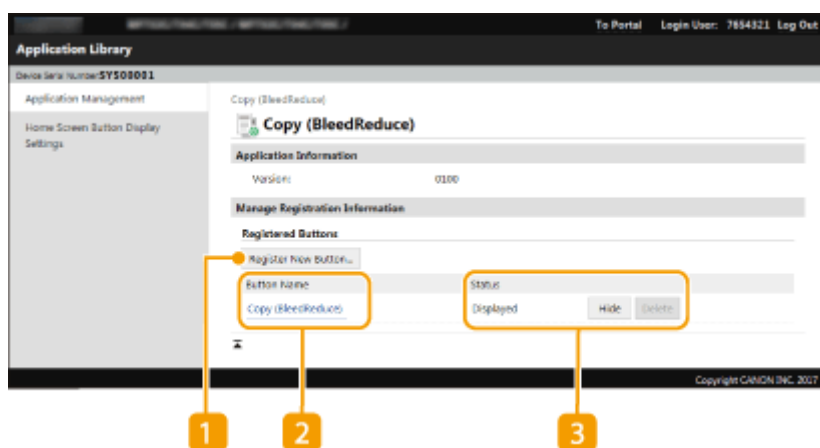

Copy (BleedReduce)

1A92-008

When you perform copying, this application allows you to reduce the degree of bleed-through (scanning of text or image printed on the back side). It is useful when you copy on thin paper. You can register multiple buttons covering different numbers of copies to print or different density levels to apply, and select and use the best-suited button for the printing purpose or the type of the original.

NOTE

- This application is only available with machine models provided with copy function.

1 [Register New Button]

Opens the [Register New Button] page. In this page, you can specify the Adjust Background Density setting, the Erase Frame setting, and the button name to be displayed on the Home screen.

2 [Button Name]

Displays a list of registered buttons. Clicking the link of a button name in the [Button Name] list opens the [Button Details] page, which allows you to change or duplicate the settings of the corresponding button.

3 [Status]

Displays or hide the button on the Home screen. If you want to delete the button, first hide it and then click [Delete].

Setting the Home Screen Display

Setting the Home Screen Display	16
--	-----------

Setting the Home Screen Display

1A92-009

You can change the order in which the buttons are displayed in the Home screen. You can also insert or delete a blank between buttons. The following describes an example operation: moving the <Copy> button from top left to top right of the Home screen.

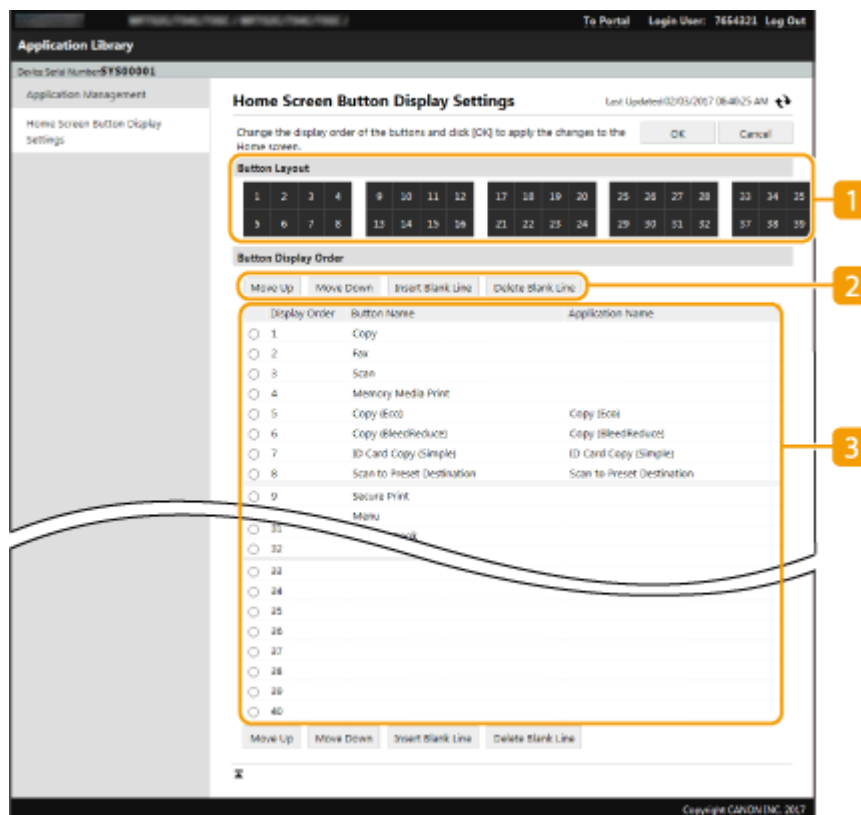

1 Start the Remote UI and log in to System Manager Mode.

2 Click [Application Library] on the Portal page.

3 Click [Home Screen Button Display Settings].

⇒ The settings page appears.

1 [Button Layout]

Shows the positions of the buttons in the Home screen. The numbers correspond to the numbers under [Button Display Order].

2 Display order setting button

[Move Up]

Each click moves the selected button one line up.

[Move Down]

Each click moves the selected button one line down.

[Insert Blank] *

Each click inserts a blank into the Home screen.

[Delete Blank] *

Each click deletes a blank from the Home screen.

*The button name may differ depending on the machine model.

3 [Button Display Order]

Displays the display order of the buttons.

4 Under [Button Display Order], select [Copy].

5 Click [Move Down] repeatedly until [Copy] moves down to the line for Display Order number [4].

6 Click [OK].

Troubleshooting

Troubleshooting	19
------------------------------	-----------

Troubleshooting

1A92-00A

If execution of the application fails, a message appears in the Home screen. The following describes the possible messages.

Could not start the application.

The button was pressed at the same time when the application was disabled.

- If the button remains displayed, press it again to execute the application.

Could not start the application because the necessary information is not registered. Register the information from Remote UI.

The information necessary for execution of the application has not been registered.

- Log in to the Remote UI in System Manager mode, and register the necessary information.

Cannot perform the operation because some settings have been changed from Remote UI, etc. Check the settings.

The current settings are such that the application cannot be executed.

- Log in to the Remote UI in System Manager mode, and change the settings.

Print Template ended due to an unexpected error.

Custom paper size setting has not been made on the machine.

- To use the custom size paper with the Print Template function, you need to configure the paper size setting. If your machine does not allow you to perform paper size registration in the Print Template setting page, use the operation panel to register the desired custom size as <S1>. If your machine allows you to specify the registration number for custom paper size ([S1] to [S3]), use the operation panel to specify the desired registration number.

This Font Software is licensed under the SIL Open Font License, Version 1.1.

This license is copied below, and is also available with a FAQ at: <http://scripts.sil.org/OFL>

SIL OPEN FONT LICENSE Version 1.1 - 26 February 2007

PREAMBLE

The goals of the Open Font License (OFL) are to stimulate worldwide development of collaborative font projects, to support the font creation efforts of academic and linguistic communities, and to provide a free and open framework in which fonts may be shared and improved in partnership with others.

The OFL allows the licensed fonts to be used, studied, modified and redistributed freely as long as they are not sold by themselves. The fonts, including any derivative works, can be bundled, embedded, redistributed and/or sold with any software provided that any reserved names are not used by derivative works. The fonts and derivatives, however, cannot be released under any other type of license. The requirement for fonts to remain under this license does not apply to any document created using the fonts or their derivatives.

DEFINITIONS

"Font Software" refers to the set of files released by the Copyright Holder(s) under this license and clearly marked as such. This may include source files, build scripts and documentation.

"Reserved Font Name" refers to any names specified as such after the copyright statement(s).

"Original Version" refers to the collection of Font Software components as distributed by the Copyright Holder(s).

"Modified Version" refers to any derivative made by adding to, deleting, or substituting -- in part or in whole -- any of the components of the Original Version, by changing formats or by porting the Font Software to a new environment.

"Author" refers to any designer, engineer, programmer, technical writer or other person who contributed to the Font Software.

PERMISSION & CONDITIONS

Permission is hereby granted, free of charge, to any person obtaining a copy of the Font Software, to use, study, copy, merge, embed, modify, redistribute, and sell modified and unmodified copies of the Font Software, subject to the following conditions:

- 1) Neither the Font Software nor any of its individual components, in Original or Modified Versions, may be sold by itself.
- 2) Original or Modified Versions of the Font Software may be bundled, redistributed and/or sold with any software, provided that each copy contains the above copyright notice and this license. These can be included either as stand-alone text files, human-readable headers or in the appropriate machine-readable metadata fields within text or binary files as long as those fields can be easily viewed by the user.
- 3) No Modified Version of the Font Software may use the Reserved Font Name(s) unless explicit written permission is granted by the corresponding Copyright Holder. This restriction only applies to the primary font name as presented to the users.
- 4) The name(s) of the Copyright Holder(s) or the Author(s) of the Font Software shall not be used to promote, endorse or advertise any Modified Version, except to acknowledge the contribution(s) of the Copyright Holder(s) and the Author(s) or with their explicit written permission.
- 5) The Font Software, modified or unmodified, in part or in whole, must be distributed entirely under this license, and must not be distributed under any other license. The requirement for fonts to remain under this license does not apply to any document created using the Font Software.

TERMINATION

This license becomes null and void if any of the above conditions are not met.

DISCLAIMER

THE FONT SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO ANY WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT OF COPYRIGHT, PATENT, TRADEMARK, OR OTHER RIGHT. IN NO EVENT SHALL THE COPYRIGHT HOLDER BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, INCLUDING ANY GENERAL, SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF THE USE OR INABILITY TO USE THE FONT SOFTWARE OR FROM OTHER DEALINGS IN THE FONT SOFTWARE.
