Yale Certified Safes (Y Series)

| TEST METHOD | TIME | PASS LEVEL |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------|---------------|
| Test 1 Bench Appraisal | Not Timed | |
| <p>The products were given a general examination and bench appraisal, and no concerns were found.</p> <p>Locking Mechanism and locking bolts protected by hard plate.</p> <p>Note: Accreditation only applies to items:</p> <p>YSM-520-EG1 YSM-400-EG1 YSM-250-EG1 YLM-200-EG1.</p> | | |
| TEST METHOD | TIME | PASS LEVEL |
| Test 2 Drilling | 3 minutes 20 seconds Test Abandoned | Pass - Silver |
| <p>TOOLS USED: 18 Volt Drill C15 HSS Bits B17 Club Hammer C05 Punch B09</p> | | |
| <p>Using the above tools an attempt was made to drill through the safe side wall to access the locking bolts to punch back to open, This could not be achieved within the time specified above. As no headway was being made the test was abandoned.</p> <p>The product successfully withstood this method of attack.</p> | | |
