## **Important Safe Information**

**Before using, please read the following instructions carefully.**

When operating an ozone generator, please remember to remove people, pets, and plants in the area. Be sure to leave the area being disinfected immediately and only return once the ozone smell has dissipated. Under most conditions, the disinfected area should be safe to return after 30 minutes after the machine stops producing ozone, and with the doors and windows open.

### **Safety precautions**

1. Any deviation from the operating manual or induced malfunction, such as water damage, is not covered by the terms of the warranty.
2. Store the Ozone Monitor in a cool, dry area when not in use.
3. Do not take the ozone monitor apart as mechanical failure may result.
4. Do not breathe in ozone directly when operating the ozone monitor. Breathing in ozone may cause shortness of breath, headaches or lead to serious respiratory problems.
5. Do not use this product when there is open flaming nearby.
6. Plug in the machine, turn the pointer on the timer to the right side minutes that needed. After disinfecting, must plug off and turn the timer off. please notice, when the timer pointer in on position means the machine is open all the time. if connected with wi-fi smart socket, then can put the pointer on "on" position, cause can control the machine by smart wi-fi socket and phone.

## Product Overview

Ozone is an allotrope of oxygen, and its production comes from oxygen in the air. Ozone can decompose itself into oxygen atoms at room temperature, and a single oxygen atom has extremely strong oxidizing properties. The strong oxidizing properties of ozone have unique The disinfection, sterilization and can remove odors. Ozone is widely used in environmental protection, disinfection and sterilization.

## Main Function

1. Sterilization and deodorization, purification of air.
2. Break down the toluene emitted by new furniture and walls formaldehyde and other harmful gases (natural volatilization takes 3 years can volatilize completely)
3. Effectively eliminated and improved the smell of kitchen oil smoke, fishy smell, pesticide and pungent odors in toilets, the smell of sand in the garage (basement).
4. Remove smoke, dust and harmful substances in the air, Keep the indoor air clean and fresh.

## Specification

Ozone Output: 5g/h ☐ 10g/h ☐ 15g/h ☐ 20g/h ☐ 24g/h ☐ 28g/h ☐

Power: 60W ☐ 80W ☐ 100W ☐ 120W ☐

Input Voltage: 110V ☐ 220V ☐

Operating Frequency: 50/60HZ

Material: Stainless steel & Ruthenium-Ceramic plate

Color: Blue ☐ Silver ☐

Working Noise: 30-50db

Timing Range: 0-60 Minutes

## Operational Instruction

1. Put the machine gently on a flat surface, pay attention to no open flames nearby.
2. Plug in the machine. Turn on the ozone generator.
3. Adjust the timer to the specified working time according to the specification on page 5. If you see a bright light inside, it means the ozone machine is working.
4. During the operation of the machine, pay attention that animals or humans must leave the room.

## After Services

### (1) Warranty period:

After purchasing the product, you can enjoy the one-year warranty or replacement parts with the warranty card and shopping voucher.

### (2) Warranty scope:

If the product has abnormal product quality during normal operation according to the instructions or when using the product, and it is caused by a design defect of the product or a malfunction caused by the abnormal quality of the components, it is covered by this warranty.

### (3) The following scope does not enjoy warranty service:

- Damage caused by users falling, unraveling privately, improper storage, etc .;
- The content on the warranty card does not match or is altered by the product identification;
- Damage caused by failure to use according to product specifications;
- The product is damaged due to force majeure reasons such as power supply, temperature, humidity, lightning, fire, earthquake, etc .;
