## Functions

Status	Function
Aoto green light	Indicated that the intelligent automatic level is turned on, and the purification level can be automatically switched according to the air quality.
Green light	The green light indicates that the purification Level 1 mode is on, at which time the air quality indicator light slowly breathes and blinks.
Red light	The red light indicated that the purification Level 2 mode (enhanced mode) is on and the air quality indicator light breathes and blinks quickly.
White light	The white light indicates the humidification mode is on.
Air quality indicator light	The green light of the air quality indicator light blinks, which indicates the excellent air quality; the red light flashes, which indicates the poor air quality.

## Product Operation Method

### Purification Function

1. Open the magnetic upper cover of the purifier and install the strainer into the purifier.
2. Supply power to the purifier with USB cable and place it in a suitable position in the car.
3. Tap [AUTO] or [PURIFY] button to turn on the purification function.

### Humidification Function

1. Open the silica gel plug of the water tank at the bottom of the purifier.
2. Add tap water or mineral water into the water tank.
3. Power the appliance and tap the [HUMIDIFY] button to turn on the humidification function.

**Note:** When the purification and humidification functions are enabled at the same time, there may be slight water accumulation of the product surface due to external factors. Please take care of that and wipe it off so as not to affect the normal use of the humidification function. Humidification works every three seconds by default.

## Product Safety Information

Please read all the instructions and warnings before using this product. Non-standard use will damage the appliance or personal safety.

1. Do not store the appliance in high temperature, strong light and strong magnetic field. Do not place it in other harsh environments such as fire source. If water enters, dry it naturally and use it again.
2. Improper use of the appliance can easily cause damage to the product or may endanger personal and property safety.
3. Consumer shall be liable for any personal and property damage resulted from their improper use against the user's guide or ignoring the warning, to which our company will not bear any legal liability.
4. Disintegration of this product by non-professionals is strictly prohibited.
5. Use of household appliances or loads in excess of the output current of this product shall be avoided (no output due to circuit protection).
6. Intense physical actions including knocking, throwing, trampling on and squeezing etc. shall be avoided.
