

T70

USER MANUAL

Dear customer, thank you for purchasing our product. Please read the following instructions carefully and follow them to ensure that the product serves you safely and to your full satisfaction. This will prevent it from being misused or damaged. Avoid unprofessional handling of this device and always follow the principles of use of electrical appliances. Keep the operating instructions in a safe place.

Warnings

- Please read the user manual carefully before using the product.
- This product generates heat while working, please be cautious to avoid any possible harm.
- Please don't shine the product directly into eyes.
- Please keep the light away from children.
- Please use WUBEN or WUBEN recommended batteries.
- Please don't disassemble the light or it will not be covered by WUBEN warranty policy.
- Please don't throw the product or battery into fire.
- This is not a product intended for diving, please do not use it underwater.

Package List

Before using this product, please check whether the contents of the package are complete.

1. T70 × 1 	2. 26650 Li-ion Battery × 1 
3. Holster × 1 	4. Lanyard × 1 
5. Spare O-ring × 1 	6. Type-C Charging Cable × 1 
7. Manual, Warranty Card, Quality Certificate × 1 	

Product Operation

1. About Product

The WUBEN T70 is a multifunctional flashlight for use in outdoors and camping activities. It utilizes 1 × CREE XHP70 LED, powered by 1 × high drain 26650 Li-ion battery with a 5000mAh capacity. The built-in Type-C charging design makes it more convenient to use.

2. Installation

Please remove the insulation plate before using.

3. Operation

1. ON/OFF: Press the button once to turn the light on/off.

2. Default Output Selection: When the light is on, press the switch once to cycle through Low-Med-High-Turbo outputs. Press and hold the switch for 2s to turn off the light.

3. Continuous Output Selections: When the light is on, press the switch three times to get into continuous output selection. Start from Low to Turbo and then Turbo to Low, release to select the current output, and then click the switch three times again to switch into default output selection mode.

4. Flash Mode: When the light is not on continuous output brightness selection mode, press the switch twice to switch between Strobe and SOS modes, then click once to exit the flash mode.

5. Instant Turbo: Press the switch once to activate turbo output, then press again to turn it off.

4. Lock and Unlock

When the light is off, it blinks 3 times to indicate lockout status. Any operations on the switch will activate the blue light in the switch to indicate the lockout status, with the exception of three presses, which unlocks the light.

5. Battery Status Indication

Please make sure the light is off before charging. Connect a Type-C charging cable with the light and adapter of 5V / 2A to charge. It takes about 4h to fully charge the light (based on 5V / 2A adapter).

Power below 15%	Red light flashes
Power 15% ~ 40%	Red light on
Power 41% ~ 90%	Blue light flashing
Power 91% ~ 100%	Blue light on

⚠ Only use batteries with protection circuits.

⚠ Make sure the rubber cap is covered well after the charging is finished to not compromise the IP68 waterproof level.

Power 100% ~ 80%	Blue light on (turns off after 5s)
Power 79% ~ 30%	Blue light flashing (turns off after 5s)
Power 29% ~ 15%	Red light on (turns off after 5s)
Power below 15%	Red light flashing

Parameters

FL1 Standard	Turbo	High	Med	Low	Strobe	SOS		
	4200  1300 LM	1300LM	400LM	40LM	4200LM	100LM		
	1+120 mins	3.5h	7.5h	35h	/	/		
	250m				1m			
	15750cd				IP68 (2m underwater for 1h)			
	177g / 6.24oz (without battery) 261g / 9.21oz (with battery)							
	139.7mm × 42mm 5.5in × 1.65in (L × D)							

⚠ All data is derived from experiments of WUBEN lab according to the ANSI/NEMA FL1 standard, results may vary because of different experimental equipment, experimental environment or other factors. The experiments are based on WUBEN 26650 Li-ion battery (5000mAh).

Accessory Recommendations

Holster, ABT500C battery, extended tube.

Maintenance

- The O-Ring may be damaged after long time use. Please replace the O-Ring in time to ensure the waterproofness of the product.
- Please use WUBEN batteries or WUBEN recommended batteries.
- When the flashlight indicates low power, please charge or replace the battery in time to avoid affecting the durability of the battery.
- Please use alcohol and a rag to clean the conductive parts of the flashlight.
- When not in use for a long time, please remove the battery to prevent the battery from leaking or exploding. Store the flashlight in a dry and ventilated place.
- Never use concentrated or abrasive cleaners on the lamp housing.

FAQs

Problems	Causes	Solutions
Abnormal flash or failure to turn on	Check whether the flashlight isn't in lockout mode.	Unlock the flashlight.
	Check if the switch is turned on correctly.	Turn on the switch
	Check if the product is assembled correctly.	Tighten the assembly parts.
	Check if the battery is not reversed.	Remove the battery and reassemble the product correctly.
	Check the conductive position for dirt or any grime.	Clean the surface with alcohol.
	Check whether the battery is not low on power.	Use the charger to check and/or power the battery.
Abnormal noise	Check whether there isn't any foreign matter in the tube.	Pour out possible foreign matter.
	Damage to parts.	Contact your seller.

If your problems still aren't solved, please contact WUBEN headquarters for after-sales service.

Warranty Policy

A new product purchased in the Alza.cz sales network is warranted for 2 years. If you need repair or other services during the warranty period, contact the product seller directly, you must provide proof of purchase with the original date of purchase.

The following are considered to be a conflict with the warranty conditions, for which the warranty claim may not be recognized:

- Use of the product for a purpose other than that for which the product is intended or failure to follow the instructions for maintenance, operation and service of the product.
- Damage to the product due to a natural disaster, the intervention of an unauthorized person or mechanically through the fault of the buyer (eg during transport, cleaning by inappropriate means, etc.).
- Natural wear and aging of consumables or components during use (such as batteries, etc.).
- Exposure to adverse external influences, eg sunlight and other radiation or electromagnetic fields, ingress of fluid or object, mains overvoltage, voltage generated by electrostatic discharge (including lightning), faulty supply or input voltage and inappropriate polarity of this voltage, chemical processes, e.g. used power supplies, etc.
- If modifications, alterations, design changes, or alterations have been made by anyone to change or extend the product's features over the purchase or use of non-genuine components.
- Copies of proof of purchase of the product, altered, supplemented, without the original data or otherwise damaged documents on the purchase of the product will not be considered as documents proving the purchase of the claimed product.
