

L50

USER MANUAL

Dear customer, thank you for purchasing our product. Please read the following instructions carefully and follow them to ensure that the product serves you safely and to your full satisfaction. This will prevent it from being misused or damaged. Avoid unprofessional handling of this device and always follow the principles of use of electrical appliances. Keep the operating instructions in a safe place.

Warnings

- Please read the user manual carefully before using the product.
- This product generates heat while working, please be cautious to avoid any possible harm.
- Please don't shine the product directly into eyes.
- Please keep the light away from children.
- Please use WUBEN or WUBEN recommended batteries.
- Please don't disassemble the light or it will not be covered by WUBEN warranty policy.
- Please don't throw the product or battery into fire.
- This is not a product intended for diving, please do not use it underwater.

Package List

Before using this product, please check whether the contents of the package are complete.

1. L50 × 1 	2. 18650 Li-ion Battery × 1 
3. Micro-USB Charging Cable × 1 	4. Lanyard × 1 
5. Spare O-ring × 2 	6. User Manual/Quality Certificate 

Product Operation

1. About Product

The L50 is a multifunctional flashlight for use in outdoors and camping activities. It utilizes 1 × OSRAM P9 LED, powered by 1 × high drain 18650 Li-ion battery, with which the product can emit as much as 1200 lumen at max output. The built-in charging design makes it more convenient to use.

2. Installation

Please remove the insulation plate before using.

3. Operation

1. ON/OFF: Press the button once to turn the light on/off.

2. Default Output Selection: When the light is on, press the switch once to cycle through Eco-Low-Med-High outputs. Press the button again to turn it off. The product has a memory function, and therefore it will remember the last output level used when being turned off.

3. SOS: When the light is on, press the button twice to activate SOS, press again to exit.

4. Low Battery Indication

When the remaining runtime is less than 30 minutes no matter in which output, the flashlight will flash 3 times every 5 minutes until it is powered off.

5. Charging

When the light is off, open the rubber cap to expose the Micro-USB charging port, plug the charging cable according to the correct direction, and connect to power source to charge. It takes about 4 hours to fully charge the device (5V/1A).

Red light on	Charging
Green light on	Charging finished
Red light and green light alternating	Poor contact
Red light flashes	Battery damaged
Green light flashes	Light is on or wrong battery installation

⚠ Only use batteries with protection circuits.

⚠ Make sure the rubber cap is covered well after the charging is finished to not compromise the IP68 waterproof level.

Parameters

FL1 Standard	High	Med	Low	Eco	SOS
	1200LM	400LM	75LM	5LM	200LM
	1.5h	2.5h	8.5h	143h	/
	200m			1.5m	
	10008cd			IP68 (2m underwater for 1h)	
	90g / 3.17oz (without battery) 138g / 4.87oz (with battery)				
	138.6mm × 26mm 5.46in × 1.02in (L × D)				

⚠ All data is derived from experiments of WUBEN lab according to the ANSI/NEMA FL1 standard, results may vary because of different experimental equipment, experimental environment or other factors. The experiments are based on WUBEN 18650 Li-ion battery (2600mAh).

Accessory Recommendations

Holster, ABE3400 battery, ABE3100C battery.

Maintenance

- The O-Ring may be damaged after long time use. Please replace the O-Ring in time to ensure the waterproofness of the product.
- Please use WUBEN batteries or WUBEN recommended batteries.
- When the flashlight indicates low power, please charge or replace the battery in time to avoid affecting the durability of the battery.
- Please use alcohol and a rag to clean the conductive parts of the flashlight.
- When not in use for a long time, please remove the battery to prevent the battery from leaking or exploding. Store the flashlight in a dry and ventilated place.
- Never use concentrated or abrasive cleaners on the lamp housing.

FAQs

Problems	Causes	Solutions
Abnormal flash or failure to turn on	Check if the switch is turned on correctly.	Turn on the switch
	Check if the product is assembled correctly.	Tighten the assembly parts.
	Check if the battery is not reversed.	Remove the battery and reassemble the product correctly.
	Check if the battery is not low on power.	Try the battery on other products
	Check the conductive position for dirt or any grime.	Clean the surface with alcohol.
