- Power On: Pres and hold the power button to turn on the watch.
- Power Off: Pres and hold the power button to turn off the watch.
- Home menu: Press the power button once to display the clock

1.2) Clock Face:

- Press and hold the center of the clock to change the clock face.

*Swipe in any direction from the clock face to proceed to the main menu.

1.3) Status Bar Icons:

	ALARM CLOCK IS ON
	DEVICE SOUND IS ON
	BATTERY STATUS

1.4) Battery Recharging:

*Note: Adult operation is suggested.

- Gently pull out the cover of the Micro-USB port on the left side of the watch.

- Insert the included Micro-USB cable (small end) into the Micro-USB

port on the watch.

- Insert the large end of the Micro-USB cable on your computer or to a standard USB power outlet adapter.
- Once the connection is successful, you will see a battery-charging symbol appear on the watch screen.
- When the battery is fully charged, the charging icon will stop animating and the battery symbol on the screen will show full.
- When the battery is fully charged, disconnect the charger from the power outlet first, then disconnect the watch from the charging cable.
- The battery strength icon on the status bar will scroll until the device is fully charged.

Note: Please charge your watch before you use it. It takes approximately 1 hour to fully charge the battery.

Battery Notice:

Misuse of batteries can lead to them bursting, causing a fire or chemical burns. Please read the following precautions:

- Do not disassemble the battery.
- Do not crush and do not expose the battery to any shock or force such as hammering, dropping, or stepping on it.
- Do not expose to high temperatures or place near a heat source.
- Do not leave in direct sunlight.
- Do not dispose of in a fire.

- Do not handle damaged or leaking batteries.
- Keep the battery dry.

1.5) Splash Proof for Everyday Play:

- Do not put the watch under running water.
- Do not submerge under water. Not suitable for showering, bathing, or swimming.
- Keep the cover of the Micro-USB port closed tightly while it is not in use in order to prevent any water getting in the watch.

2) Games:

Click the game menu on the watch, and there are 6 game options:

● TETRIS

There are buttons for start, sound, help, highest score and “exit” settings. Click the start button to start the game. Use your finger to control the square to move left and right. Click the square on the screen to change the shape and place the various blocks automatically output in the game. Arrange them into a complete line or multiple lines and eliminate them to get a score, spell out a complete one or several at the bottom of the screen. These complete bars will disappear immediately to make room for the newly-falling plates. At the same time, players will be rewarded

with points. Blocks that have not been eliminated continue to pile up. Once they reach the top of the screen, the player loses and the game ends. The drop-down interface is to exit the game, and the option changes to continue or drop-down the interface to restart the game.

- MARIO EAT GOLD

There are start, difficulty level, highest score, sound, help setting buttons, click NEW to start the game, press the center button to jump with your finger, press the center twice to make a big jump, you need to collect as many coins as possible and cross platform. Don't fall or hit the pillar, otherwise the game is over!

- STICK HERO

There are start, help, and exit settings buttons. Click NEW to start the game. Long press the screen to generate a bridge. The length of the bridge cannot be less than the distance to the top of the cliff. The bridge cannot be too long and cannot exceed the maximum distance from the cliff, otherwise the hero will fall into the cliff and end the game.

- CRAWL 2048

There are start, help, and exit settings buttons. Click NEW to start the game, use the up, left, right and down buttons to slide the number box to the new direction.

- BEE WAR

There are buttons for start, highest score, sound, and help settings. Click NEW to start the game and protect your planet from new enemies. Destroy them all before they reach your base. The purple enemy needs to be hit 2 times. To get as many points as possible!

- CAR GRAB GOODS

There are buttons for start, difficulty level, highest score, sound, and help setting. Click NEW to start the game. Use your finger to control the

car to move left and right to receive the gold coins dropped by the plane.

To get as many gold coins as possible, there are a total of three chances.

Automatically exit the game when it is used up.
